# Who Is Hamley—*Anyway?*

THE customers of "Hamley" are numbered by the thousands in all parts of the United States, Canada and Mexico. These customers know "Hamley" only, however, as the maker of First Quality Riding Goods. They do not know from where nor whence he came and they do not know whether he is of the black, white or yellow race. It may interest some to know a little more about the man who founded "Hamley & Co.," so here is a short biography.

The father and mother of J. J. Hamley came to this country from England in 1840. Wm. Hamley had been associated with his father in the making of English riding goods and harness and entered the same kind of business in this country in Wisconsin.

J. J. Hamley (John) was born in 1859 and when he was five years old his father enlisted in the Civil war. After returning from the war, his father took up the same business again. John stayed with his father until he was twenty-four years of age. The family was large and they had no money, so John, and his brother Henry, having learned the trade as

mechanics, decided, in 1883, that they wanted to go West and start for themselves. They left Wisconsin, each with a railroad ticket to Ashton, South Dakota, and ten dollars in cash between them. Of course they needed something besides this ten dollars, as they were "going into business" so they stopped at a wholesale house in Minneapolis and, in some way, induced the manager of that concern to allow them credit to the extent of \$500. This \$500 stock was shipped to Ashton and the saddle and harness store they started there was known as "Hamley Bros."

Things went fine in Ashton for about three years. Business was good and they made a little money. Four straight years of crop failures hit that country then, however, and in 1890 they had lost what they had made and were badly in debt besides. They had one asset, though, which could not be lost in that way and this asset was the "nerve and pluck" they had shown the manager of the wholesale house in Minneapolis, when they asked him for the \$500 credit.

The brothers decided there must be some better place than South Dakota just at that particular time, so with their wives and John's one-year old son Lester, moved West again. This time to Kendrick, Idaho. By a little more good luck than bad, John was able to withstand a fire in 1892, which burned his store as well as every other store in the town; the death of his brother, Henry, in 1893; the rainy fall of 1894; pay up his old debts which he was obliged to leave in South Dakota; put a family of three children through school; withstand another fire in 1904 which again burned every store in the town; and land in Pendleton, Oregon in

J. J. HAMLEY  
Founder of the house of Hamley & Co.

1905, with a capital of about \$5,000 in cash and a name for honesty, integrity and aggressiveness among wholesalers, both East and West, as well as among his customers and friends who knew him personally.

Hamley & Co., Pendleton, Oregon, was established June 5, 1905. As soon as John's Idaho friends learned he was again established in business they began sending to him for their saddles, harness, etc. Oregon people soon took notice of the superior quality of his goods and his fair prices. A great number of the people from this part

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

of the country began taking up claims and buying property in Southern Idaho, Northern California, Montana, etc., and of course Hamley was called upon for saddles, harness, etc. Mail order business, from these personal friend customers, was hard to handle without a catalog, so, in 1909, the first "Hamley Catalog" was printed.

"Hamley" fame has now spread to practically every farm and ranch home in the entire West. In our shops will be found some mechanics who have been in this business nearly as long as J. J.

Hamley has; men who know saddles and riding equipment from A to Z. The aim of the whole organization is right in keeping with J. J. Hamley's ideas: viz—deliver to each customer exactly the kind of goods he wants; make sure that "made to order" goods are made the way they are ordered and see to it that "quality" is paramount in every article shipped.

With this brief sketch you may know something of J. J. Hamley, the President, Manager and chief owner of this concern.

## Ask Our Customers—They'll Tell You Why You Should Order from Hamley

**T**HERE is probably not a manufacturing concern of any kind, probably any place, which does not claim that its product is the "best" on the market. Some of these claims are warranted and some are not. The very best way to test claims of this kind is to either use some of the goods which are manufactured by the firms making the claims or to enquire from other people who have already used them.

Hamley Products are known wherever riding goods are used. If you have used them you already know how thoroughly fit they are; you know with what promptness and how completely all your enquiries are answered; you know how refunds are made, amounts from 1c upward, on every order you send if your remittance is greater than the price of the goods ordered; and you also know how our prices were reduced on all goods, as fast as markets would permit, after the high prices of 1919 and 1920.

Now, if you have not been using Hamley goods we're sorry; we are not going to make a lot of claims, however, as they would mean nothing to you. We're just going to rest our case with our customers, they are the biggest boosters we have and their word, especially as some of them are friends of yours, will mean more to you than anything we can say.

Below are letters from some of our customer friends:

## Ask the Men Who Ride Them

*Hamley Saddles Talk for Themselves  
Through the People Who Ride Them*

Niarada, Mont., Nov. 1, 1921.

HAMLEY & CO.,  
Pendleton, Oregon.

DEAR SIRS: I received a letter some time ago asking if my new saddle was satisfactory. Will say in reply that any time I order from you people I know that it is going to be right when I send my order. I am well pleased with the Hamley-Bronc. It is the real saddle for hard-boiled horses.

If you will look at your files you will find that this is my third Hamley saddle. When the orders keep coming you know that the goods you put out are O. K.

(Signed) M. A. BARDOFF.

Harlem, Mont., August 29, 1921.

HAMLEY & CO.,  
Pendleton, Oregon.

GENTLEMEN: I received my saddle No. 540 made up on a Canutt Special 13½-inch tree with your new flat rigging, and I can say for riding the bad ones it can't be beat. At a Stampede the 26th every rider on the list that day rode my saddle and all you could hear was praise for it. One fellow who got first money at Moose Jaw last month laid his "Bronc Riding" saddle aside and rode mine. You will, no doubt, hear from some of these boys right away.

(Signed) STANLEY BROCKWAY.

*(Read what more of the boys say on page 158)*

## The Hamley Guarantee

### CONTRACT

We hereby Agree with the holder of this Catalog that we will refund the money for any goods that are not exactly as represented, and we furthermore agree to repay all expenses incurred in any unsatisfactory transaction, including transportation charges both ways, subject to conditions named in Article 4.

HAMLEY & CO.

President

#### 1—Our Terms:

are cash. Your check is good. No charge for exchange on checks and drafts drawn on United States Banks. At least one-fourth the amount of every order must accompany the order. Strictly one price to all. All prices subject to change without notice. Where prices are reduced goods will be shipped at the reduced price and the saving returned to you. In case of advance in price, we will advise you before shipping the goods, if you so request. All prices are F. O. B. Pendleton, except where otherwise stated.

#### 2—How to send money:

The best way is by postal or express money order. We also accept bank drafts and checks drawn by responsible parties. Make all drafts, orders and checks payable to Hamley & Co. We accept stamps for amounts up to \$100.00 if received in good order.

#### 3—How to write an order:

Write distinctly. Especially your name and full address. Give postoffice, county and state. State exact amount of money sent. Use our order forms if possible; we supply them free. Do not cut illustrations from Catalog. Simply give number, page, size, price and color when necessary.

#### 4—Return goods and exchanges:

We will exchange goods if not satisfactory if returned at once and in good condition with the following exceptions:

Goods made to order according to measurement.

Goods not cataloged, which have been procured especially to your order.

No article which has been worn or used in any way is returnable.

#### 5—Important—Read this sure:

Never be afraid to ask questions. We are here to serve you, and inquiries regarding qualities, prices, etc., will always be answered promptly. Make your letters clear; don't think, because you understand exactly what you want, that we do, too. Explain fully what you want and we are sure we can please you. Don't be afraid to write long letters; we will take time to read them, and do everything possible to accommodate you. Your satisfaction means our success.

#### 6—References:

As to our reliability and reputation, we refer you to any Commercial Rating Agency in America. We also refer you to the First National Bank and American National Bank, and Inland Empire Bank, Pendleton, Oregon.

## About Prices

**A**LL PRICES in this catalog are NET F. O. B. Pendleton, and subject to reductions or advances at any time as conditions demand. Prices are figured down just as close as it is possible to figure and still maintain the quality of the goods.

The quotations on heavy stock saddles include trees as long as 15 inches and skirts of the right dimensions to balance with the tree. On saddles priced at \$80.00 and over, for square skirts, we include skirts as large as 30x15 inches. For skirts this large it requires a tree fully 14½ or 15 inches long to make the saddle balance. For a tree as short as 13 inches, the skirts should not be over 28 inches long.

## About Extras

For some of the extras on saddles, the following list will give considerable information:

For saddles with trees longer than 15 inches, add \$1.50 for each inch over the 15 inches.

For square skirts larger than 15x30 inches on saddles, listed at \$80.00 and over, add \$1.00 extra for each additional inch of width and 75 cents extra for each additional inch of length.

For California Round Skirts like shown on page 57, add \$2.00 to the price quoted on the regular round skirts on the saddle under consideration.

For One-piece Fenders and Stirrup Leathers, when not shown that way in picture of saddle quoted, add \$3.00 on flowered saddles and \$2.00 on check stamp or plain saddles.

For One-piece Seat and Front Jockeys (like shown on page 40) add \$2.50 to the price quoted on round skirt saddles and \$3.50 on square skirt saddles.

For Rope Roll Front and Cantle Bindings on saddles shown with regular style bindings, add \$8.00.

For Rawhide Braided Horn on saddles showing wrapped or leather covered horn, add \$1.00 to price of saddle.

For Sterling White Metal Horn instead of regular wrapped steel horns, add \$3.50 to price quoted. (We have a special horn with a thick edge so it will not cut the hand.)

For Button Top Sterling Horn like shown on Saddle "Forsyth," page 12, add \$4.00 to prices quoted on saddles showing wrapped or covered horns.

Initials or Brand stamped on back cantle of saddle without charge.

For Swell Forks wider than quoted in description of saddle, add \$1.00 for each inch of swell over the width specified.

Double Rawhide Cover on Tree, \$5.00 extra. Our trees all have extra heavy covers and double cover is really not necessary.

If double stirrup leathers are wanted on saddles shown with half double leathers, add \$1.50 to price quoted.

For Hamley's Flat Plate Rigging, on saddles shown with other style single riggings, add \$2.50 to price.

*See Index in Back*

## Table of Measurements

If you are not sure what size tree you should order, this may help you some.

Your Approximate Height	Approximate Weight	Tree Styles and Seat Measure to Order.						
		Kane Hamley Bronc Contest	Canutt	Ellensburg	Taylor	Montana	Moore or Burns	Hamley Roper
5 ft. 2 in. to 5 ft. 6 in.....	110 to 130 lbs.	11½	12	12½	13	13	13	13½
5 ft. 4 in. to 5 ft. 6 in.....	120 to 130 lbs.	12	12½	13	13½	13½	13½	14
5 ft. 6 in. to 5 ft. 8 in.....	130 to 140 lbs.	12½	13	13	13½	13½	13½	14
5 ft. 8 in. to 5 ft. 10 in.....	150 to 165 lbs.	13	13½	13½	14	14	14	14½
5 ft. 6 in. to 5 ft. 8 in.....	150 to 165 lbs.	13	13½	13½	14	14	14	14½
5 ft. 8 in. to 5 ft. 10 in.....	170 to 185 lbs.	13½	14	14	14½	14½	14½	15
5 ft. 8 in. to 5 ft. 10 in.....	185 to 200 lbs.	14	14½	14½	15	15	15	15½
5 ft. 10 in. to 6 ft.....	150 to 165 lbs.	12½	13	13½	14	14	14	14½
5 ft. 10 in. to 6 ft.....	170 to 185 lbs.	13	13½	14	14½	14½	14½	15

The measurements given are not guaranteed to be right for every rider. Some folks like a tight fit in a saddle and some want lots of room. The sizes given are for the average person and will help you some if you are undecided. Same measurements apply to New Low Bronc as to regular Hamley Bronc and same to New Low Canutt as to regular Canutt.

## In Which Postal Zone Are You?

**T**HIS PAGE and page 9 are mainly for use when ordering saddlebags and other heavy articles shipped by mail. The postage required on small articles is quoted along with the price of each article.

To determine the postal zone in which your post-office is located from Pendleton, consult this page. If you cannot ascertain the zone from the information given here, just ask your postmaster. He has a zone map and guide and can tell you very easily. For postal rates to your zone see following page. If you remit too much for postage we shall return any balance due you.

**OREGON**—Hood River and The Dalles are in the Second Zone, as well as all towns east of them. Portland and nearly all towns in the Willamette Valley are in the Third Zone. In Eastern Oregon, Burns and all towns north are in the Second Zone. The Narrows and all towns directly east or west are in the Third Zone.

**WASHINGTON**—Seattle, Tacoma, Vancouver, Olympia and all towns near them are in the Third Zone. All towns in Northern Washington, within seventy-five miles of the Canadian border, are in the Third Zone. All towns south and east of the places mentioned are in the Second Zone.

**IDAHO**—McCall, Tensed, Ahsahka, Payette, Kooskia, and all towns west of any of these are in the Second Zone. All towns north and all south and east as far as Gilmore, Bernice, Clearlake, Dietrich, and Roseworth are in the Third Zone. All towns directly east or south of these are in the Fourth Zone.

**CALIFORNIA**—Northern California and as far south as San Francisco is in the Fourth Zone. All south of San Francisco is in the Fifth Zone.

**MONTANA**—Western Montana and as far east as Essex and Deer Lodge is in the Third Zone. Central Montana and as far East as Barnard, Glasgow, Lame Deer, Forsyth, Busby and Decker, is in the Fourth Zone. All towns east of these are in the Fifth Zone.

**COLORADO**—All of Colorado is in the Fifth Zone from Pendleton.

**WYOMING**—The western half of Wyoming is in the Fourth Zone and the eastern half is in the Fifth Zone.

**UTAH**—The northern half of Utah is in the Fourth Zone and the southern half is in the Fifth Zone.

**NEVADA**—The extreme northwestern corner is in the Third Zone. The balance of Nevada is in the Fourth Zone with the exception of the extreme southern corner, which is in the Fifth Zone.

**NORTH and SOUTH DAKOTA, COLORADO and ARIZONA**, are practically wholly within the Fifth Zone.

**NEBRASKA**—The western half is in the Fifth Zone and the eastern half is in the Sixth Zone.

**ARIZONA**—The whole state, with the exception of the extreme southeastern corner is in the Fifth Zone. The southeastern corner is in the Sixth Zone.

**NEW MEXICO**—The northwestern half is in the Fifth Zone and the balance is in the Sixth Zone.

**KANSAS**—The northwestern corner is in the Fifth Zone and the balance of the state is in the Sixth Zone.

**MINNESOTA, IOWA and OKLAHOMA**—All of these states are in the Sixth Zone.

**TEXAS**—The northwestern half is in Sixth Zone and the southeastern half is in the Seventh Zone.

**ALL STATES EAST OF THOSE NAMED ABOVE** are in the Seventh and Eighth Zones.

**CANADA**—The whole of Canada is in the Eighth Zone.

For Postal rates applying to different zones see next page.

## About Shipping Goods

*Regarding the shipping of goods, to determine the zone in which you live, see opposite page*

Packages weighing as much as 70 pounds can now be shipped by mail to places within the first, second and third zones. The limit in other zones is 50 pounds. The limit in size is 84 inches for the combined length and girth of the packages. Within these limits are included saddles with round skirts, and some saddles with square skirts can also be mailed provided the skirts are not too large.

If you live off the railroad and it is hard to go to the Express Office we shall be glad to ship your saddle by mail if you will just include the money for postage when sending the order. If your office is a money order postoffice all you need do in sending the order is remit a small deposit and we can ship C. O. D. for the balance as well as the postage. If your office is not a money order office remit full amount of order, including postage. Your check will do the trick.

If you live within the first or second zone from Pendleton the postage amounts to five cents for the first pound and one cent additional for each extra pound. If you live in the third zone the first pound is six cents with two cents extra for each additional pound. If you live in the fourth zone the first pound is seven cents with four cents for each additional pound. For the fifth zone the first pound is eight cents, with six cents extra for each additional pound. For the sixth zone the first pound is nine cents, with eight cents extra for each additional pound. For the seventh zone the first pound is eleven cents and each additional pound is ten cents. All territory outside of the seventh zone is in the eighth zone and each pound is twelve cents.

The average weight of a round skirt saddle, with 14-inch swell, is about 38 pounds when packed; so, if it is to be shipped within the first or second zones the charge is about 42 cents; into the third zone it would be 80 cents; into the fourth zone, \$1.55; into the fifth zone, \$2.30; into the sixth zone, \$3.05; into the seventh zone, \$3.81; into the eighth zone, \$4.56.

The cost of postage on small articles is given under the prices throughout the book. The amounts stated are usually more than is necessary for shipments into the nearer zones, but when too much postage is remitted we always return the balance. If the postage is not enough we shall advise at the time of shipment.

All parcel post packages are insured when they leave our store so there is no possible loss to our customers by goods being lost or damaged in the mail. The express companies guarantee safe delivery of goods shipped through them.

Following is a table giving approximate express charges on a package weighing 40 pounds (which is about the weight of most saddles when packed); shipped into state of Washington, 50c to \$1.00; Idaho, 75c to \$1.50; Utah, \$1.75 to \$2.50; Nevada and Wyoming, \$1.75 to \$2.75; California, \$1.50 to \$3.00; Montana, \$1.00 to \$2.25; Colorado, \$1.50 to \$3.00; Arizona, New Mexico, Texas, \$3.25 to \$4.25; North Dakota, South Dakota, Nebraska, Kansas, \$2.50 to \$3.25; Louisiana, \$4.25 to \$4.75; Minnesota, Iowa, Missouri, Arkansas, \$2.65 to \$4.00. All states east of Mississippi River range from \$3.50 to \$4.75. The above figures are about as close as can be figured without listing each Express Office separately.

**CANADIAN SHIPMENTS**—Canada is in the eighth zone (parcel post), and the rate by mail is 12 cents per pound. The limit in weight is 4 pounds 6 ounces and the postage on a package of that weight would be 60c. Larger packages must go by express.

Express rates to Canada vary considerably. The charges on a 40-pound shipment ranging from \$2.75 to \$3.25 in Southern British Columbia, Alberta, and Saskatchewan, to \$3.50 and \$4.50 in the more northern districts. Far eastern and northeastern Canadian shipments are, of course, proportionately more. Express charges must be prepaid on shipments to Canada. Please include expressage with your remittance.

The present Canadian duty on leather goods is about 30 per cent.

Please do not ask us to invoice Canadian shipments at prices less than their actual value. We play fair with the Government the same as we do with our customers.

DESIGN—Acorn and oak leaf, all hand stamped.  
PRICE ..... \$98.50  
Round skirts ..... \$88.00

THIS saddle has been shown in several of our former catalogs and has proven so popular with particular people that it is again pictured in this book. The stamping is not so heavy as to injure the leather, but there is enough of it to make a real classy-looking job.

Of course, the materials throughout are strictly first selection and the saddle is absolutely guaranteed to give real service and not to hurt your horse. The tree in the saddle pictured is a Hamley Improved Ellensburg. You may have some other style tree if you wish, and will just mention it in your order. The Ellensburg, however, is one of the most popular and most satisfactory trees made for all sorts of work.

NUMBER  
512

THE BAR U—A sturdy, well proportioned, strictly first grade saddle, made for hard roping. The tree is especially proportioned to handle heavy work in the easiest way for the horse, and no details for improving the usefulness of the saddle have been overlooked. The rigging rings shown are solid white nickel. You may have hand forged steel rings with leather covering if you wish. This saddle can also be made on our special combination trick riding and roping tree with long slim-necked horn with no change in prices.

DESIGN—Full flower hand stamp.  
PRICE—Skirts as described ..... \$108  
Round skirts, large shape...\$95.00

THE LAZY K—Here is another of the old favorite saddles which has been shown in several of our catalogs. The first saddle of this particular number was turned out nearly ten years ago, and the man who bought it is still riding it. We have sold dozens of the same style merely through the boasting of that man. You will see pictures of the Montana tree further along in the book, and if it happens that you do not like that style, you may have any other of the several kinds shown. The saddle is all "goodness" throughout, absolutely guaranteed in every way, and will fill the bill for the hardest of work.

# The Stanfield

NUMBER  
609

**T**HE STANFIELD—For many years, in order for a man to get just what he wanted in the way of a trick riding and roping saddle, it was necessary for him to make up his own description, set forth his own ideas, and then take a chance on getting a saddle which would fill the bill. We have come in contact with many of these special saddles and have made so many of them for professional folks, that we have learned to know just what is required for their work. The saddle shown here will fill the bill for the most critical. The fork of the tree is covered with extra heavy rawhide, and this rawhide fork covering will be put on double when so ordered. You may also have wrapped horn instead of the leather covered horn, if you wish. The tie strings are  $\frac{3}{4}$  of an inch wide.

#### SPECIFICATIONS

**TREE**—Hamley combination (for trick riders and ropers), low, narrow fork, long necked horn, low sloping cantle.

**WEIGHT**—About 38 pounds.

**SKIRTS**—15x30, modified butterfly shape.

**STIRRUP LEATHERS**—3-inch, half double, all one piece with fenders.

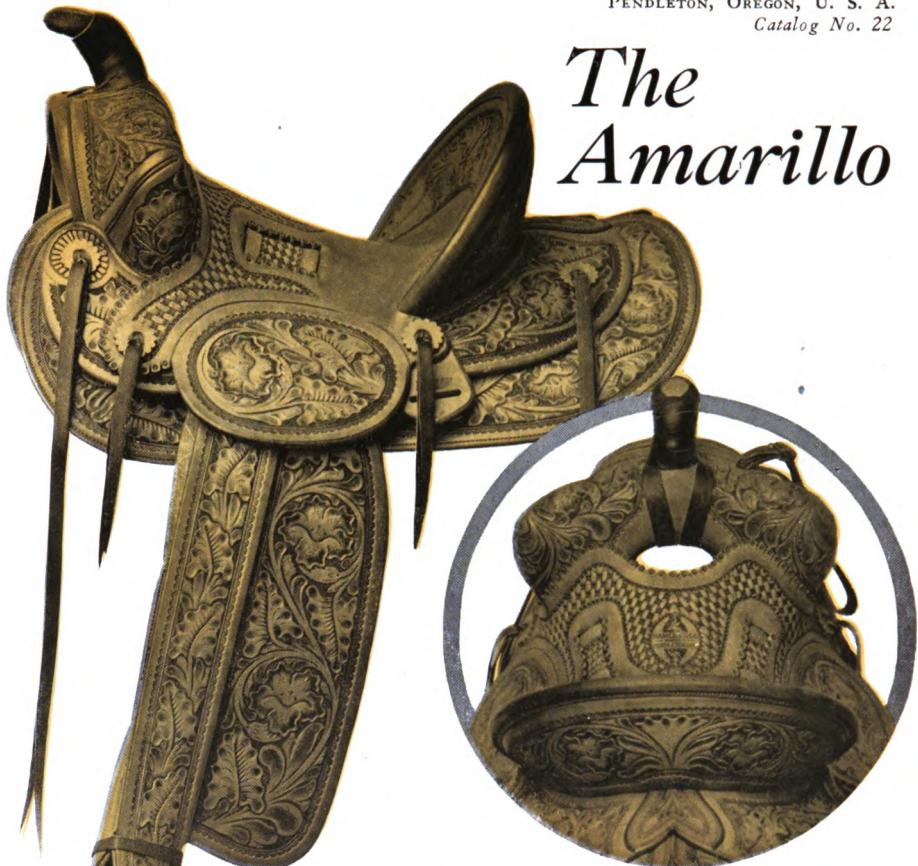

**SEAT**—Full one piece with front jockeys, side jockeys and cantle.

**RIGGING**—Full double, fitted either with long latigos or tugs as shown.

**PRICE**—As pictured and described ..... \$117.50

Less stamping and with round tie buttons on strings ..\$100

# The Amarillo

NUMBER  
610

#### SPECIFICATIONS

TREE—Hamley Improved Ellensburg with 14-inch swell fork, can-  
tile 5 inches high.

WEIGHT—About 33 pounds.

SKIRTS—Well proportioned; round  
to correspond with the seat meas-  
ure of the tree you order.

STIRRUP LEATHERS—Extra se-  
lect, heavy stock, full 3 inches  
wide.

SEAT—One piece with side jock-  
eys and cantle with loops cut  
through seat for stirrup leathers.  
If you do not care for the loop  
holes for stirrup leathers, just say  
so in your order and seat will be  
left solid.

RIGGING—Center fire, flat ring  
style shown. You may have  $\frac{3}{4}$ “E-Z” or flat or round ring if  
mentioned in your  
order.

PRICE—As shown .. \$92.50  
Square skirts, \$12.50 extra.

THE AMARILLO—You may have had, sometime in the past, an old saddle or a horse, or even a dog, that you petted along and thought a lot of because it had either given you a lot of good service, or been a real true friend. That is just the way we feel about this saddle. The first one like it appeared in a catalog of ours which was issued ten or twelve years ago, and this particular style has found its way into probably more places throughout the country than any other one flower stamped Hamley saddle. If you know the size tree you want, and want to be sure of getting a saddle which will please you thoroughly, you need go to no bother whatever, except to tell us that you want No. 610, and that you ride a certain size tree. This saddle is suited for all kinds of work.

# The Augusta

**T**HE AUGUSTA—The first saddle of this style was made for Mr. C. S. Nixon of Augusta, Montana, and that is why it is called "Augusta." Mr. Nixon bought the saddle many years ago and it has been so satisfactory, and given him so much real pleasurable use that he has induced several of his friends to order this same saddle. The saddle is fancy as to stamping, but is made throughout for the very hardest of use and is absolutely guaranteed to give the service one expects from a first quality article. Your initials or brand will be stamped on the large acorns on the skirts which show "N" in the picture.

#### SPECIFICATIONS

**TREE**—Hamley Improved Taylor, 14-inch swell fork, 5-inch cantle.

**WEIGHT**—About 37 pounds.

**STIRRUP LEATHERS**—Full 3 inches, full double, selected stock.

**SEAT**—Full one piece with cantle and side jockeys.

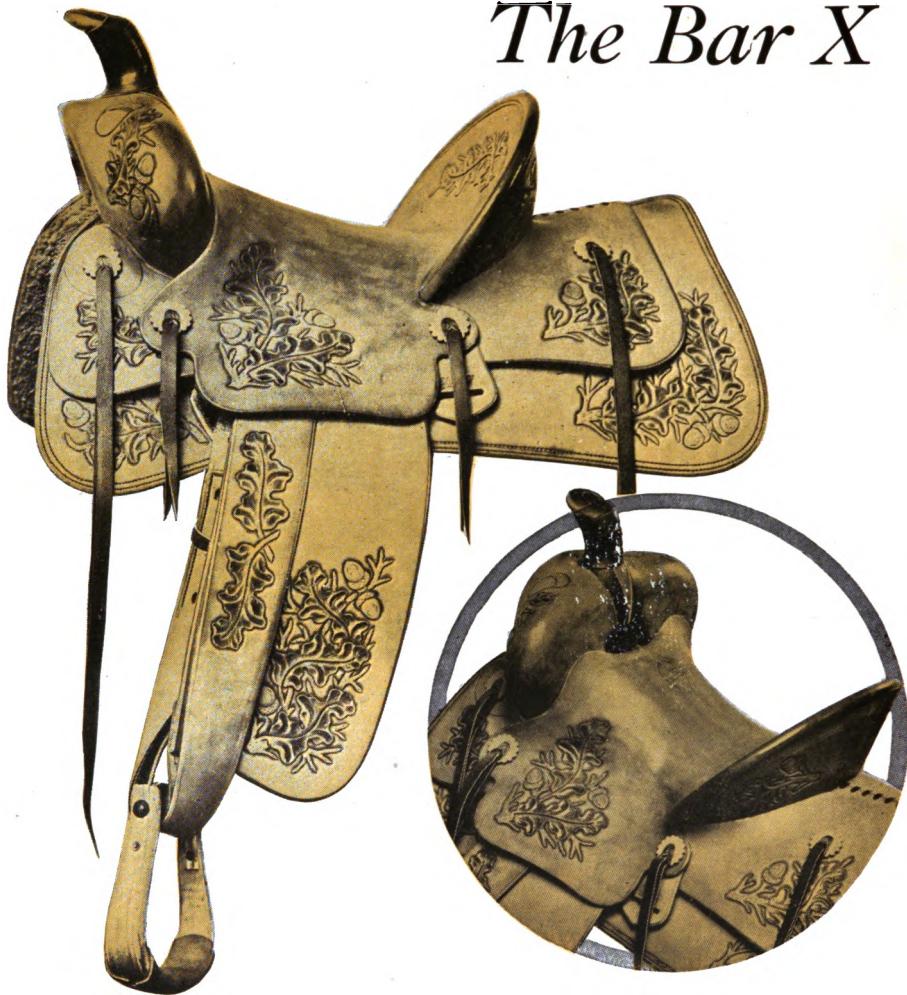

**RIGGING**—Spanish style with leather covered ring is shown. You may have "E-Z" rig,  $\frac{3}{4}$ , or any other single style rigging. Full double rigging is \$3.50 extra.

**STAMPING**—Strictly hand work throughout.

**PRICE**—As shown ..... \$105

With round skirts ..... \$90.00

# The Bar X

NUMBER  
516

## SPECIFICATIONS

**TREE**—Is the very popular Hamley Improved Ellensburg, 14½-inch swell fork, 5-inch cantle.

**WEIGHT OF SADDLE**—About 36 pounds.

**SKIRTS**—Ordinarily shaped as shown. About 14½ inches wide by 28 inches to 30 inches long, depending upon seat measure of tree. Will furnish ordinary square skirts with pointed or rounded corners, if wanted.

**STIRRUP LEATHERS**—Full 3-inch, selected heavy stock, half-double style.

**SEAT**—Full one piece with cantle and side jockeys.

**RIGGING**—"E-Z" style is shown. You may have flat or round rings, if wanted. Full double rigging, \$3.50 extra.

**PRICE**—as shown ..... \$89  
With round skirts ..... \$79.00

**T**HE BAR X—This saddle is not designed to suit the taste of a person who wants something fancy. When you buy this saddle you are just buying quality materials, high grade of workmanship and a lot of real service. Materials could not be better, skirts are double-stitched and the saddle is made throughout to stand the hardest of use. The tree shown is the regular Hamley Improved Ellensburg. You may have the new low Ellensburg, if you wish, or any of the other styles pictured in this book. The shape of the skirts will also be changed to suit you.

# The Hollywood

NUMBER  
519

**T**HE HOLLYWOOD—For some reason or other, this saddle has been a favorite over the country, both with men and lady riders. Quality is not the only distinctive feature of this saddle. It has a style of its own. For lady riders, we have furnished a good many of these saddles built on a special Ellensburg tree with narrow seat. It will also be built on the ordinary Ellensburg or any other style.

Of course, the stamping, every bit of it, is all done by hand. If you do not want quilted seat, deduct \$2.50 from prices.

#### SPECIFICATIONS

TREE—Hamley Improved Taylor,  
14-inch swell fork, 5-inch cantle.

WEIGHT—About 33 pounds.

SKIRTS—Regular round shape,

STIRRUP LEATHERS—Full 3  
inches wide, selected heavy stock,

May have any other style you  
wish. Full double, \$3.50 extra.

PRICE—With round  
skirts, as shown ..... **\$87.50**

With square skirts ..... **\$98**

## The Braggart

By E. A. BRININSTOOL

I've fit the Injuns often, pard,  
An' I hev killed a few.  
I've had the cusses chase me hard,  
Been captured by 'em too!  
They've give me many a pain an' ache,  
An' stripped me of my clo'es,  
An' tried to burn me at the stake—  
In movin' pitcher shows!

I was a bad 'un in my prime!  
Played outlaw? Yes-sir-ree!  
I've done bank robbin' many a time,  
An' held up trains, by gee!  
An' I've been stabbed an' cut an' shot  
A dozen times, I s'pose,  
An' helped in many a murder plot—  
In movin' pitcher shows!

I've been a cowboy, you kin bet!  
An' played the game all through!  
Chased hawss-thieves till it made me sweat,  
An' helped lynch rustlers, too!  
I've played the hero more'n once!  
Yep, that's my fav'rit pose!  
Whar' did I pull off all these stunts?  
In movin' pitcher shows!

I've driv a stagecoach in the West  
Plumb full o' human souls!  
Had robbers loot the treasure chest,  
An' shoot me full o' holes!  
An' held up passengers, by smoke!  
An' took their cash an' clo'es,  
I shorely hev—this ain't no joke—  
In movin' pitcher shows!

I've killed nigh onto twenty men!  
An' I've been dragged to jail,  
An' just escaped a lynchin' when  
A posse struck my trail!  
I'm THE bad man of Bitter Creek!  
When I'm around, gore flows,  
Y-e-o-u-w-w-w! Jest watch me do the trick—  
In movin' pitcher shows!

(From "Trail Dust of a Maverick" by E. A. Brininstool.)

See Page 132

# The Umatilla

NUMBER  
520

**T**HE UMATILLA—A saddle like this almost talks for itself. In fact, the saddle does, and the picture of it almost says something. It is just such merchandise as this that has built up the reputation of this firm for good stuff.

Of course, the stamping is all hand work, the materials are of the first selection throughout and the saddle will give such service as is expected from a big sturdy rig.

When you buy a saddle like this, you are buying real satisfaction.

#### SPECIFICATIONS

**TREE**—Hamley Improved Montana, 16-inch swell fork. Cantle is regular 5 inches high, but the picture shows 4-inch cantle. If you want 4-inch cantle, please specify same in your order.

**WEIGHT**—About 38 or 39 pounds

**SKIRTS**—About 15 inches wide by 28 to 30 inches long, depending upon seat measure. Corners rounded.

**STIRRUP LEATHERS**—Selected heavy stock, full 3 inches wide, half-double style.

**SEAT**—All one piece with cantle and side jockeys.

**RIGGING**—Hamley Flat plate is shown. For "E-Z" or ordinary ring rigging, deduct \$2.50 from prices quoted. For  $\frac{3}{4}$  or full double style, add \$3.50.

**PRICE**—As shown ..... \$105  
With round skirts ..... \$92.00

# The Samson

NUMBER  
525

## SPECIFICATIONS

**TREE**—Hamley Improved Montana, with 14-inch swell fork. Cantle 5 inches high.

**WEIGHT**—About 38 pounds.

**SKIRTS**—15 inches deep by 28 to 30 inches long, depending upon seat measure.

**STIRRUP LEATHERS**—Full 3 inches, best selected stock, either full double style or half double style.

**SEAT**—All one piece with cantle and side jockeys. Quilted seat made of horsehide glove leather, stitched on top of solid leather seat. Can be removed without injuring saddle.

**RIGGING**—"E.Z." or round or flat ring style. Flat plate rigging, \$2.50 extra.

**PRICE**—As shown ..... **\$104**  
With round skirts ..... **\$92**

**T**HE SAMSON—Here is another saddle which almost talks for itself, and its best friends are those men who are using saddles just like it. The Dakotas and some parts of Montana are especially friendly to it and a lot of them are in use there. As the name implies, the saddle is made throughout to stand up and give continuous service under the hardest sort of strain. If you want some tree other than the Montana, just say so in your order.

# The Paonia

**T**HE PAONIA—Quality and appearance go hand in hand in this saddle. The quality of the rig is noticeable in every piece and part of it, and the small amount of the stamping rightly placed on these quality materials, make a rig which is presentable in any company. The Hamley Improved Ellensburg tree is one of the most popular and serviceable styles made. If you have some other style in mind, just tell about it in your order.

#### SPECIFICATIONS

**TREE**—Hamley Improved Ellensburg, 14-inch swell fork, 5-inch cantle.

**WEIGHT**—About 33 or 34 pounds.

**SKIRTS**—Regular round shape.

**SEAT**—Full one piece with cantle and side jockeys

**RIGGING**—“E-Z” style shown. Also made with round or flat ring rigging.

**PRICE**—As shown ..... \$84  
With square skirts ..... \$94.00

# The Favorite

NUMBER  
529

#### SPECIFICATIONS

TREE—Hamley Improved Ellensburg, 14-inch swell fork, 5-inch cantle.

WEIGHT—About 34 pounds.

SKIRTS—Regular size, round.

STIRRUP LEATHERS—Full 3-inch, selected heavy stock, half double style.

SEAT—All one piece seat and side jockeys.

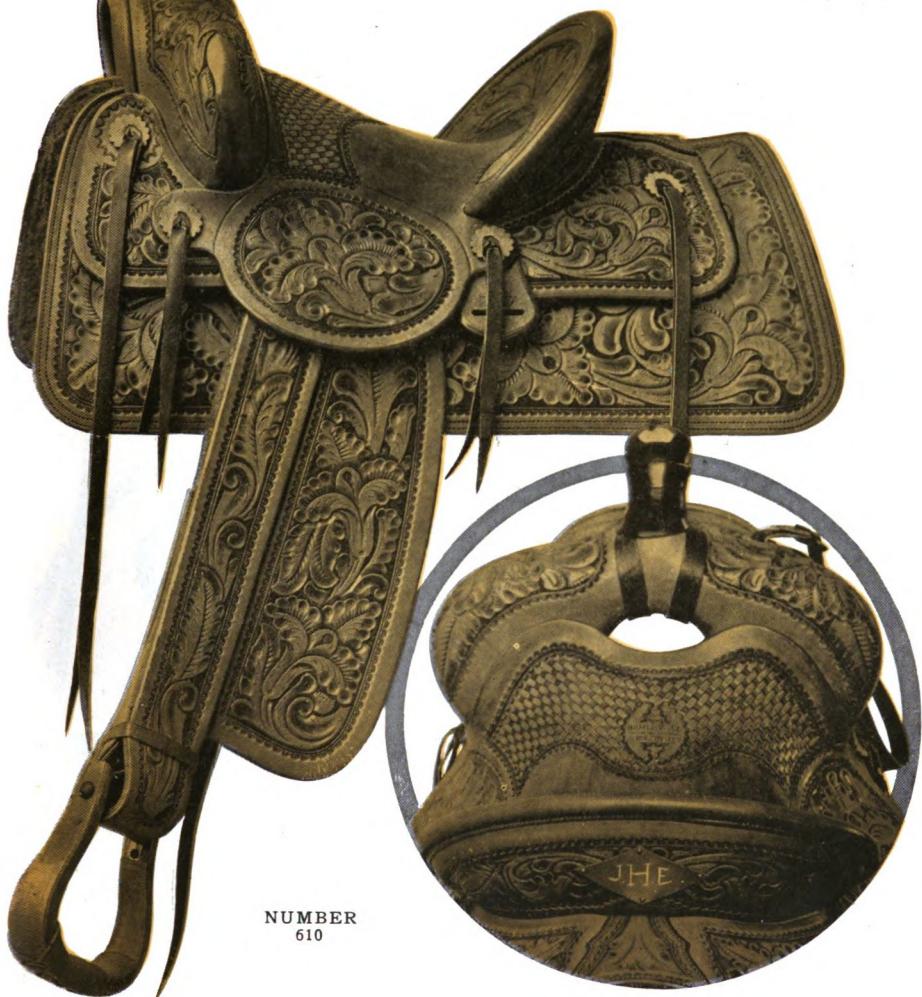

RIGGING—"E-Z" style is shown, but you may have either round or flat ring rigging if you wish. Flat plate rigging, \$2.50 extra.

PRICE ..... **\$82.50**

With square skirts 15 inches wide by 28 to 30 inches long...**\$94.00**

**T**HE FAVORITE—The word "Favorite" is well applied to this saddle as a name. Hundreds of this exact rig have been shipped to customers in all parts of the country, and it has proven one of the real builders of Hamley's reputation for good dependable merchandise. Of course, every bit of the stamping is strictly hand work. The materials are all selected with the idea of lasting service in mind. You take no chance, whatever, in ordering this saddle. Just specify the style tree you want, give your weight and height, and any other instructions which you think necessary.

# The Hillrose

**T**HE HILLROSE—This is a chummy, friendly saddle, built on a tree which snuggles right down on your horse and stays where you put it, no matter what kind of work you are doing. The tree is designed for real hard work and lots of it.

Stamping throughout is all hand work and every detail of the saddle has been watched with the idea in mind to produce a superior article at a reasonable price.

## SPECIFICATIONS

**TREE**—Hamley Improved Taylor, with special low fork and 4-inch cantle. A picture of this tree is shown, along with other styles, further along in the book. Has 15-inch swell fork.

**WEIGHT**—About 36 pounds, SKIRTS—14½ inches wide by 28 to 30 inches long, depending upon seat measure of tree.

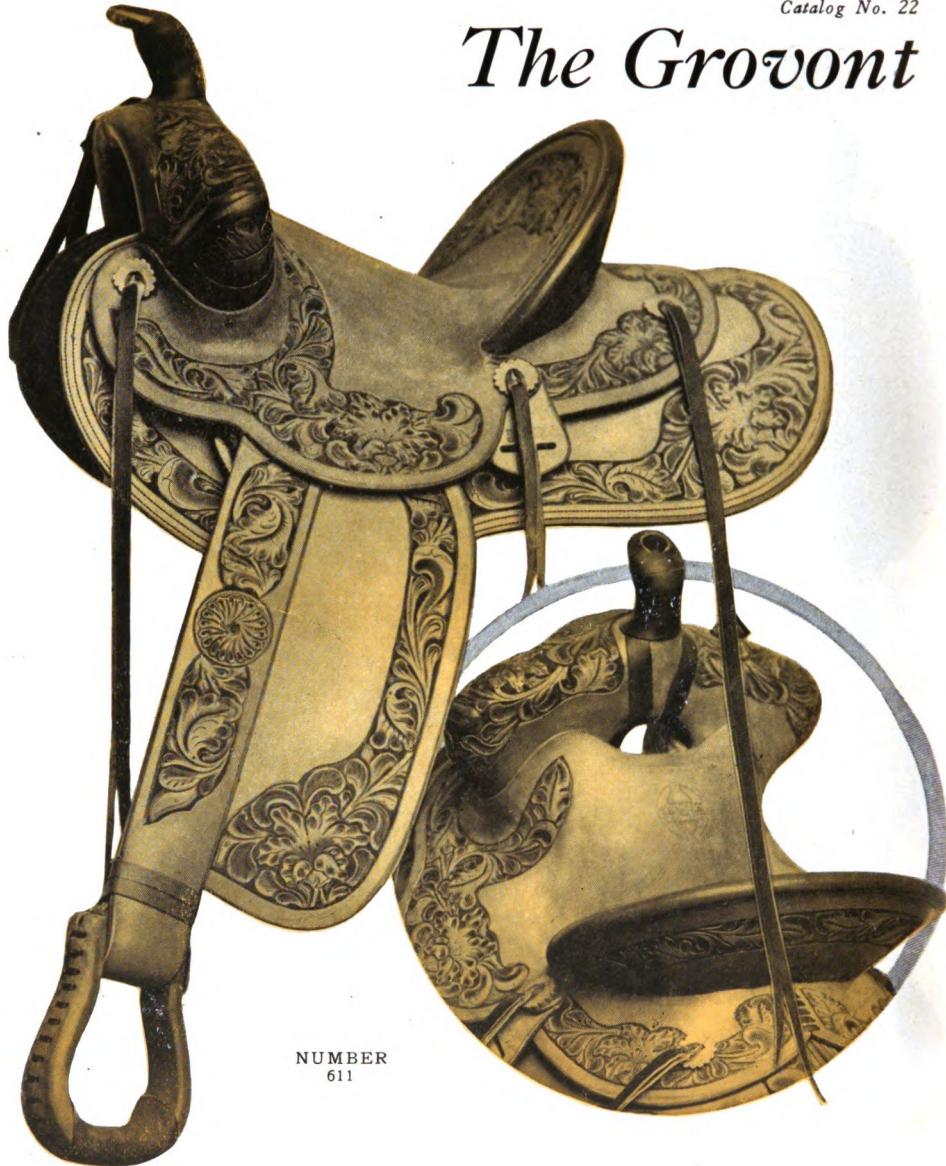

**STIRRUP LEATHERS**—Selected heavy stock, full 3 inches wide, half double style.

**SEAT**—Solid one piece, with cantle and side jockeys.

**RIGGING**—“E-Z” or ring.

**PRICE**—As shown ..... \$94  
Ordinary size, round skirts .. \$83.50

# The Grovont

NUMBER  
611

#### SPECIFICATIONS

TREE—Hamley Improved Ellensburg with 15-inch swell fork. (Will change to suit customer.)

WEIGHT—About 34 pounds.

HORN—Regularly wrapped. Plain leather cover, if wanted.

CINCHARIGGING—"Hamley Flat Plate." (If "E-Z" or flat ring rigging is wanted, deduct \$2.00)

Three-quarter double or full

double cincha rigging, \$3.50 extra.

SKIRTS—Large Round Shape.

STIRRUP LEATHERS—Full 3-inch half double style. (For full double add \$1.50 to price.)

PRICE—Large Round Skirts, as shown ..... \$92

Square Skirts, square or rounded corners ..... \$105.00

Without stamping \$10 less.

THE GROVONT saddle is the embodiment of quality, appearance, good taste and service. It is a beautiful piece of work, nice enough to ride anywhere, yet it is an all-round, practical man's everyday saddle that will stand the wear and will help your horse give the best he has. The materials are all selected—they could not be better. If you prefer some other tree just say so. Improved Ellensburg shown, however, is a conservative style and A-1 for all-round work. Guaranteed absolutely.

# The Salinas

NUMBER  
612

**T**HE SALINAS—This saddle is designed for the man who is particular as to appearance, but still must have a saddle which will stick by him through thick and thin, and deliver the utmost of service even with continuous severe usage. There is not a weak point about the rig, and it is absolutely guaranteed in every way. Note the neatness in design, the full hand stamping and the handy little pocket on the back of the cantle. As to tree, if you want some other style than the Ellensburg shown, just tell us about it in your order, and your instructions will be followed.

#### SPECIFICATIONS

**TREE**—Hamley Improved Ellensburg, with 16-inch swell fork, cantle 5 inches high.

**WEIGHT**—About 37 pounds.

**SKIRTS**—15 inches deep by 28 to 30 inches in length. (Exact length depends upon seat length of tree.)

**STIRRUP LEATHERS**—Selected heavy, first-grade stock, full 3 inches wide, half double style.

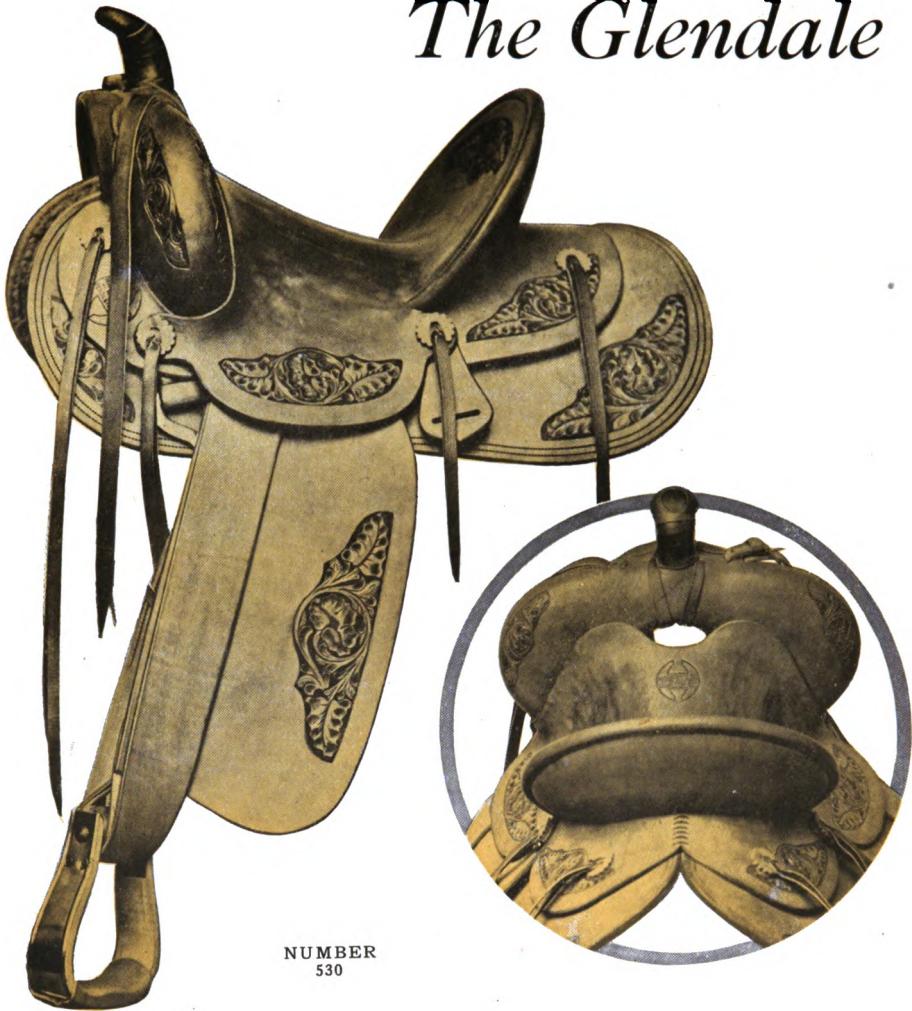

**SEAT**—Solid one piece, with cantle and side jockeys.

**RIGGING**— $\frac{3}{4}$  "E-Z" single, flat or round ring rigging, same price. Full or  $\frac{3}{4}$  double rigging, \$3.50 extra.

**PRICE**—As shown, or with square cornered skirts ..... \$95

With regular shape round skirts ..... \$84.00

# The Glendale

## SPECIFICATIONS

TREE—Hamley Improved Montana with 16-inch swell fork, cantle 5 inches high.

WEIGHT—About 36 pounds.

SKIRTS—Full round shape, about 12½ or 13 inches deep and 26 to 28 inches long, depending upon the length of the tree.

STIRRUP LEATHERS—Selected, first grade heavy stock, full 3 inches wide.

SEAT—All one piece with cantle and side jockeys.

RIGGING—"E-Z" style or round or flat rings.

PRICE ..... \$78.50

With square skirts, ..... \$87.50

**T**HE GLENDALE—One always hates to part from an old friend, and that it the way we feel about the Glendale. This saddle has been in our line so long and has so many friends that we are again showing it in this book. The seat picture shows the saddle made on a tree with 18-inch swell fork. The regular fork, however, measures 16 inches in width. This 18-inch width adds \$2.00 to the price. Notice the hang of the stirrup leathers; in fact, the shape of the saddle in every way and particularly, the shape of the seat. If you are partial to some other style tree, just mention it in your order and that feature will be changed to suit you.

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

# The Jim Dandy

NUMBER  
539

JIM DANDY is about the best name we can think of for this saddle, as it has proven to be a dandy in more ways than one. There are hundreds of these saddles in all parts of the country, carrying the "Circle H" trademark and boosting Hamley goods wherever they go. It is reasonable to suppose that a saddle like this would be a booster. The materials could not be better. They are all put together in the right way, the design is a neat one, and the rig is made in every way to give real service. If you want some other style tree, just say so in your order. There is a saddle of this same design built on an Ellensburg tree, shown on page 52.

#### SPECIFICATIONS

TREE—Hamley Improved Montana, with 16-inch swell fork, cantle 5 inches high.

WEIGHT—About 33 pounds.

SKIRTS—Regular round shape, about 12 inches deep and from 26 to 28 inches long, depending upon seat measure of the tree.

STIRRUP LEATHERS—Selected first grade stock, 3 inches wide. Fenders about 8 inches wide.

SEAT—Full one piece with cantle and side jockeys.

RIGGING—"E-Z" or ring style.

PRICE—With round skirts as shown..... **\$74.50**

With square skirts, 15 inches wide by 28 to 30 inches long ..... **\$85.00**

# The Dalhart

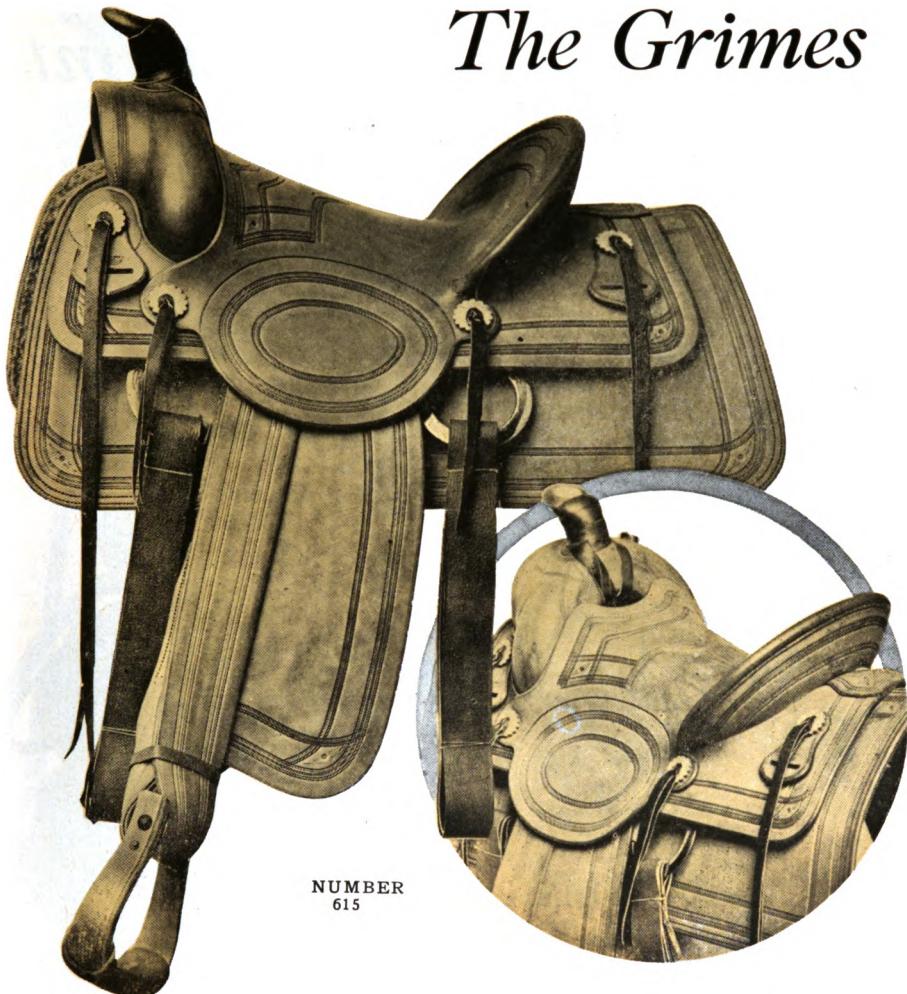

NUMBER  
614

SPECIFICATIONS	
TREE—Hamley Improved Ellensburg	with 5-inch cantle, 14-inch swell fork.
WEIGHT—About 34 pounds.	
SKIRTS—Medium size, round.	
STIRRUP LEATHERS—Heavy, extra select saddle leather, full three inches wide, half double style.	
SEAT—Solid one piece with side jockeys and cantle.	
RIGGING— $\frac{3}{4}$ , $\frac{5}{8}$ or Center Fire, round or flat rings, or $\frac{3}{4}$ "E-Z" rings.	
PRICE—As pictured and described .....	<b>\$87.50</b>
Square skirts, extra .....	\$9.00

**D**ALHART—A lot of talk regarding this saddle is hardly necessary. The pictures are very clear, and the saddle should talk for itself. As to materials and workmanship, they could not be better. Every bit of the leather which goes into the rig is selected for quality and finish. The saddle is only made by our very best mechanics, and satisfaction is guaranteed in every way. As to the Ellensburg tree, a lot is said about it in different places in this book. It is the most satisfactory all round tree that was ever designed. If you want a high grade, neat appearing rig which will stay with you through thick and thin, and delivery about \$2.00 worth of service for every dollar you put into it, you cannot beat this one.

# The Grimes

NUMBER  
615

**G**RIMES—The costly silver mounted roping saddle shown in the front of this book and given as a prize at the 1921 Pendleton Round-Up was made on this same tree. The saddle was won by Tommy Grimes, and you would realize what a wonderfully fine roping saddle this really makes if you could talk five minutes to Mr. Grimes. Part of a letter which we received from him is printed on another page in the book. The tree in a saddle, is the same as the foundation under a house, it is the main part of the article, and if you want a real roping rig right here it is. Every ounce of material in this saddle is selected for quality and finish, and an iron clad guarantee of satisfaction goes with it.

#### SPECIFICATIONS

**TREE**—Hamley Roper, heavy, low set fork, and thick, low sloping cantle.

**WEIGHT**—About 38 pounds.

**SKIRTS**—15 inches deep, by 28 to 30 inches long. Either round corners as shown, or square corners.

**STIRRUP LEATHERS**—Selected heavy stock, full three inches wide, half double style.

**SEAT**—Solid one piece with side jockeys and cantle.

**RIGGING**—Full double style with either round or flat rings, or heavy dees fitted with long latigos or short tugs.

**PRICE**—As shown and described ..... \$87.50

With round skirts medium size ..... \$79.50

# *The Lamont*

NUMBER  
616

#### SPECIFICATIONS

TREE—Hamley Jones, 15-inch swell fork, cantle 5 inches high.
Fork has slight back swell.
WEIGHT—About 38 pounds.
SKIRTS—15 inches deep by 28 to 30 inches in length, depending upon seat measure of tree.
STIRRUP LEATHERS—Selected heavy, first grade stock, full 3 inches wide, half double style.
SEAT—Solid one piece with cantle and side jockeys.
RIGGING— $\frac{3}{4}$ "E-Z" style as shown. Can furnish round or flat rings, if wanted.
PRICE—As shown, or with square cornered skirts ..... \$90
With regular shape round skirts ..... \$82.00

**T**HE LAMONT—Anything we can say for this saddle is small compared to the esteem in which it is held by those who own saddles like it. The stamp work is not elaborate, yet there is enough of it to furnish sufficient decoration. It is all hand work, of course, and quality throughout is supreme. Notice the sturdy fork. The materials throughout and the saddle itself are just as sturdy as the fork looks. If you decide that you prefer some other style tree to the Jones, tell us in your order and it will be furnished.

# The El Costa

NUMBER  
617

**E**L COSTA—The picture of this saddle talks for itself. The tree is one of the most popular styles made. The creased design has proven very popular, and it does not entail a lot of work. This leaves the greater part of the price of the saddle to pay for real quality material and first-class workmanship. You will notice that most of the horns on the saddles shown in this book are wrapped. If you prefer a leather covered horn, you may have it at no extra cost. Other changes on any of the saddles will be made to suit you.

#### SPECIFICATIONS

TREE—Hamley Improved Ellensburg with 16-inch swell fork, cantle 5 inches high.

WEIGHT—About 33 pounds.

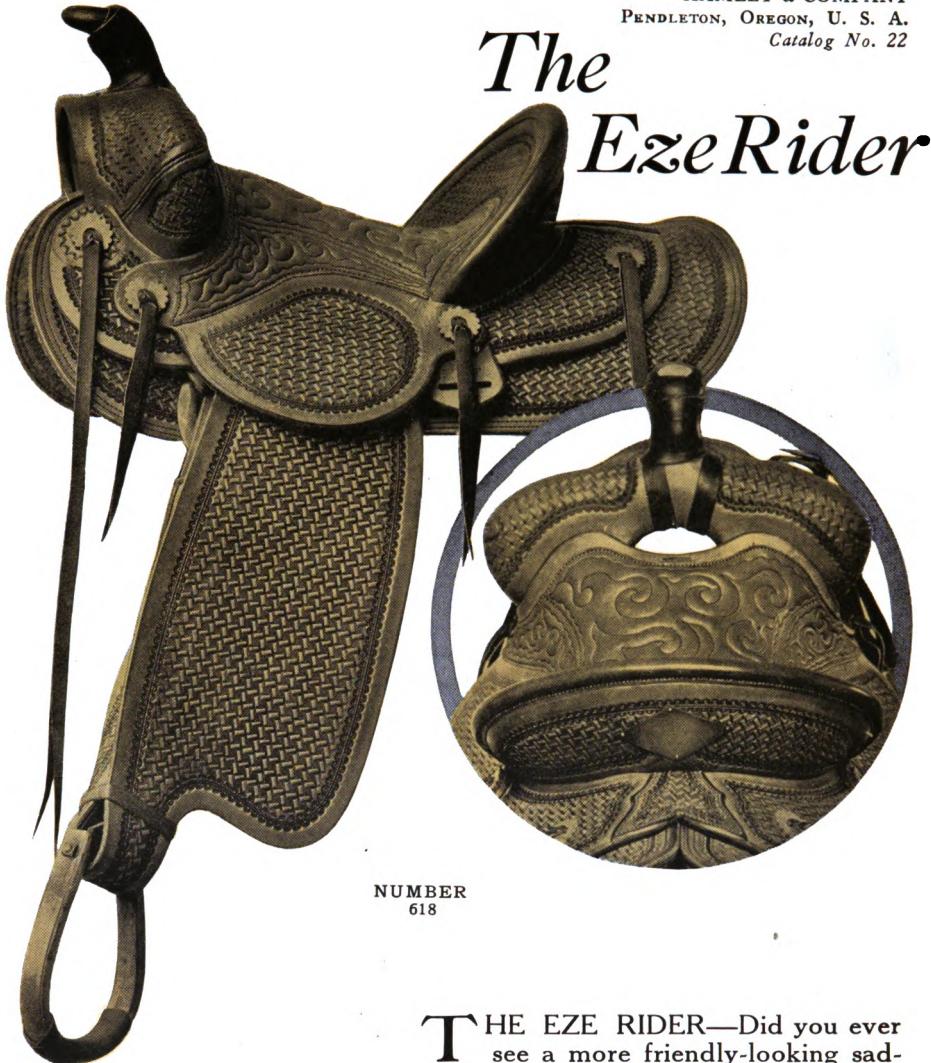

SKIRTS—Just a common sense size, round shape, full double-stitched and lined.

STIRRUP LEATHERS—Extra select, very heavy, first grade stock, full 3 inches wide.

SEAT—Solid one piece with cantle and side jockeys.

RIGGING— $\frac{3}{4}$  "E-Z" style, single, round or flat ring rigging same price. Full double or  $\frac{3}{4}$  double riggings, \$3.50 extra.

PRICE—As shown ... **\$74.50**  
Square skirts, extra ..... **\$7.50**

NUMBER  
618

#### SPECIFICATIONS

TREE—Hamley New Low Ellensburg, cantle 4 inches high, low fork.  
WEIGHT—About 33 pounds.

SKIRTS—Regular round shape, about 12 inches deep and with length proportionate to seat measure.  
STIRRUP LEATHERS—Made in one piece with fenders from selected heavy stock, half double style. If fenders and stirrup leathers are wanted separate, as shown on Jim Dandy, Glendale and others, deduct \$2.00 from price.

SEAT—Solid, made in one piece, with cantle and side jockeys, with overlaid quilt with genuine horse-hide top. Quilting can be removed without damaging balance of saddle.

RIGGING—The Hercules flat ring is shown, but you may have "E-Z" rings or regular flat round rings if you wish.

PRICE—As shown ... **\$79.50**  
Less stamping ..... \$7.00  
Less quilt, deduct ..... \$2.50  
For square skirts, add ..... \$9.00

**T**HE EZE RIDER—Did you ever see a more friendly-looking saddle than this one? It is one of the favorites among the many new saddles shown in this book. The tree is built to set down low on the horse, and yet the fork is shaped so that fine leg room and grip is afforded just at the front of the seat. It is a saddle built for all around hard work and will fill the bill for the man who is particular. When this saddle is ordered without the quilted seat the circle of stamping on the side jockeys is completed and the seat is also stamped in the center, just back of the fork. To appreciate the all around qualities of the tree in this saddle, look at the picture of the tree where it is shown along with other styles, about in the center of the book.

# The Texas

NUMBER  
619

**T**HE TEXAS—Nearly every man who does any amount of riding is obliged once in a while, whether he wants to or not, to ride a bad horse. When things like this occur he is often riding a saddle which he uses only for roping or work of that kind. Here is a tree in this saddle which is ideal both for roping and for riding bad horses. It is built down close to the horse, with a low fork, which even though low affords excellent leg grip under the swell. The cantle is medium low so as not to interfere with his rope. This whole rig we believe is almost ideal for any kind of work or riding which men may have to do. Materials are of the best.

#### SPECIFICATIONS

TREE—Hamley New Low Canutt,  
4-inch cantle and low fork.

WEIGHT—About 33 pounds.

SKIRTS—Medium round shape, just the proper size to balance well with the tree.

STIRRUP LEATHERS—Selected heavy, first class stock, full three inches wide.

SEAT—Solid one piece, with cantle and side jockeys; seat extended to front button.

RIGGING— $\frac{3}{4}$  Flat Hercules Bronze rings. You may have round rings, or "E-Z" rings at the same price.  $\frac{3}{4}$  double or full double rigging, \$3.50 extra.

PRICE—As shown and described ..... **\$73.50**

# Lady Luck

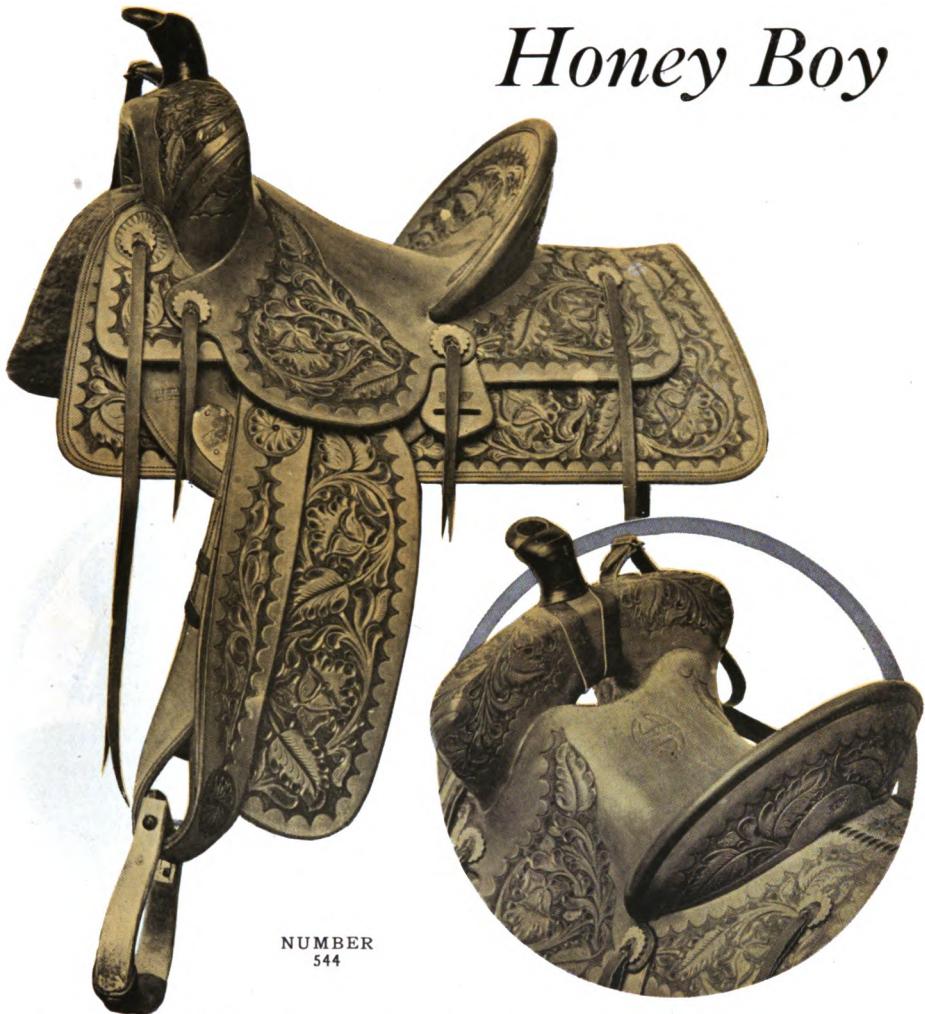

NUMBER  
543

## SPECIFICATIONS

TREE	Hamley Canutt, 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.
WEIGHT	About 33 pounds.
SKIRTS	Medium small round shape, about 12 inches deep and 26 to 28 inches in length.
STIRRUP LEATHERS	Full 3-inch, heavy selected stock, half double style.
SEAT	Made all in one piece, including the front jockeys, side jockeys and cantle.
RIGGING	"E-Z" or flat or round rings.
STIRRUPS	No. 30, No. 37 or No. 806, with leathered bottoms and rollers. If you want full covered stirrups, as pictured, add \$2.50 to price.
PRICE	With round skirts, as shown ..... <b>\$86</b> With square skirts, 15 inches by 28 to 30 inches long ..... <b>\$97.50</b>

**LADY LUCK**—For the last three or four years this saddle has proven to be one of the most popular, full-stamped saddles in our line. The name given it is just expressive of the regard in which it is held by dozens of the boys over the country. The rig has been used as a contest saddle by some, and it even fills the bill in good shape for ordinary all around work. Of course the stamping is strictly hand work throughout and it goes without saying that every bit of the material from stem to stern is of the first selection and the saddle is guaranteed to give the real service one has a right to expect from a good article. Seat picture shows No. 543 with 17-inch swell fork. Regular swell is 14 $\frac{3}{4}$ . 17-inch swell \$2.00 extra.

# Honey Boy

**H**ONEY BOY—The first showing of this saddle was in our 1920 catalog. It proved popular from the start and has lots of friends in all parts of the country. As to quality, a saddle could not be better, as the materials are all strictly first selection throughout. The tree is a Hamely Canutt Contest Style and if it is your business to "top the bad ones," Honey Boy will help you do it. Of course, if you like the style of this saddle with the exception of the tree and want an all around tree for hard work, such as roping, etc., you can have this same saddle made on the New Low Hamley Canutt. It is a dandy for all around work and still is right there when you want to ride a stepper.

#### SPECIFICATIONS

TREE—Hamley Canutt with 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.

WEIGHT—About 35 pounds.

SKIRTS—14 inches wide by 27 to 29 inches long, depending on length of seat.

STIRRUP LEATHERS—Selected grade, extra heavy, full 3 inches wide.

SEAT—Full one piece, with side jockeys and cantle.

RIGGING—Hamley flat plate style, or "E-Z" rigging, or ordinary ring rigging.

PRICE—With square shaped skirts, as shown ..... \$97.50  
Regular size round skirts ..... \$86.00

# Sure Thing

NUMBER  
546

#### SPECIFICATIONS

TREE—Hamley Canutt, 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.  
WEIGHT—About 32 pounds.  
SKIRTS—Very small round.  
STIRRUP LEATHERS—Selected heavy weight stock, full 3 inches wide, with 7-inch fenders attached.  
SEAT—Full one piece with side jockeys and cantle.  
RIGGING—Hamley flat plate style, or "E-Z" or flat or round rings.  
STIRRUPS—No. 37, No. 30 or No. 806. Leather tipped stirrups are shown, but are not included in price. If they are wanted, add \$2.00 to prices quoted.  
PRICE As described ..... \$85  
With square skirts ..... \$97.50

**SURE THING** is so named because it has proven a "Sure Thing" for a lot of boys who ride broncs for a living. Quality materials are used throughout, and of course the Hamley Canutt tree is so well known now that nothing need be said of it. The fork is high and flat on the back side, but shaped at the base of the swells to afford the necessary leg room and grip which the professional bronc rider looks for.

# The Rodeo

NUMBER  
620

**T**HE RODEO—The seat picture herewith shows the Rodeo saddle made on a Hamley Canutt tree with 16-inch swell fork. That is wider than allowed in some contests, but if you are looking for safety this extra inch on the swell sometimes comes in handy. The materials could not be better than they are in this saddle. The workmanship is the best. In fact, the whole rig is top-notch in every way. The tree and the way the leathers are put on, makes the saddle a dandy for riding bad horses.

#### SPECIFICATIONS

TREE—Hamley Canutt with 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.

WEIGHT—About 32 pounds.

SKIRTS—Small round shape.

Double stitched.

STIRRUP LEATHERS—Selected heavy, first quality stock, full 3 inches wide.

SEAT—Solid, made all in one piece, with front jockeys, side jockeys and cantle.

RIGGING—Hamley flat plate style shown. Flat ring or round ring rigging, if wanted.

STIRRUPS—Full leather stirrups are not included in prices quoted. If they are wanted, add \$2.50.

PRICE—Round skirts, as described ..... \$84

Square skirts ..... \$96.00

Round skirts, creased border, like

No. 548 ..... \$72.00

(If flat plate rigging is not wanted, deduct \$2.50)

# *Hot Dam*

NUMBER  
621

#### SPECIFICATIONS

TREE—New Low Hamley Bronc, cantle 4 inches high.

WEIGHT—About 32½ pounds.

SKIRTS—Round shape, about 12½ inches wide and 26 to 28 inches in length.

STIRRUP LEATHERS—Selected heavy stock, full 3 inches wide.

SEAT—Solid one piece with front jockeys, side jockeys and cantle.

RIGGING—"E-Z" or round or flat rings. Hamley flat plate rigging, \$2.50 extra.

With square skirts, 15 inches wide and 28 to 30 inches long...**\$86.00**

Round skirts, but creased border, like No. 548 ..... **\$74.00**

All plain ..... **\$73.00**

**H**OT DAM—One cannot imagine by looking at the picture of this saddle what real comfort and security one feels when sitting in it. Just look at the shape of the seat. Then look at the good grip afforded the legs just under the swells of the fork. In fact, examine the saddle all over. It is a regular masterpiece of workmanship. And as to quality, well, just try one and we are right here to see that you are not disappointed. This low bronc tree is not only intended for riding bad horses, but it is so designed that it sets down low on the horse, and is suitable for all sorts of work, roping or anything else.

# Bacon Boy

**BACON BOY**—The Canutt tree, such as the one on which this saddle is built, is just now probably the most popular and widely used bronc riding tree on the market. It first won its fame through the wonderful riding done in it by Enos Canutt, more generally known as "Yakima" or "Yak." To make the tree just right for bronc riding of course the fork is rather high, and a high fork is not just the thing for roping and other work of that kind. This same saddle will be made on the New Low Hamley Canutt tree, if so ordered, and there is no extra charge.

#### SPECIFICATIONS

TREE	Hamley Canutt with 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.
WEIGHT	About 32 pounds.
SKIRTS	Ordinary round shape.
STIRRUP LEATHERS	Selected heavy first grade stock, half double style.

STIRRUPS	Full leather covered, either narrow or wide bottoms. If regular No. 37 or No. 30 stirrups are wanted, deduct \$2.50 from price.
PRICE	<b>\$76</b>
All plain	<b>\$72.50</b>
With square skirts	<b>\$8.00</b> extra.

# *U-Tell-'Em*

NUMBER  
622

#### SPECIFICATIONS

**TREE**—New Low Hamley Canutt. Fork low for general work and roping. Cantle 4 inches high.

**WEIGHT**—About 32 pounds.

**SKIRTS**—Regular round shape.

**STIRRUP LEATHERS**—Heavy selected stock, full three inches wide, half double style.

**SEAT**—Solid, one piece with front jockeys, side jockeys and cantle.

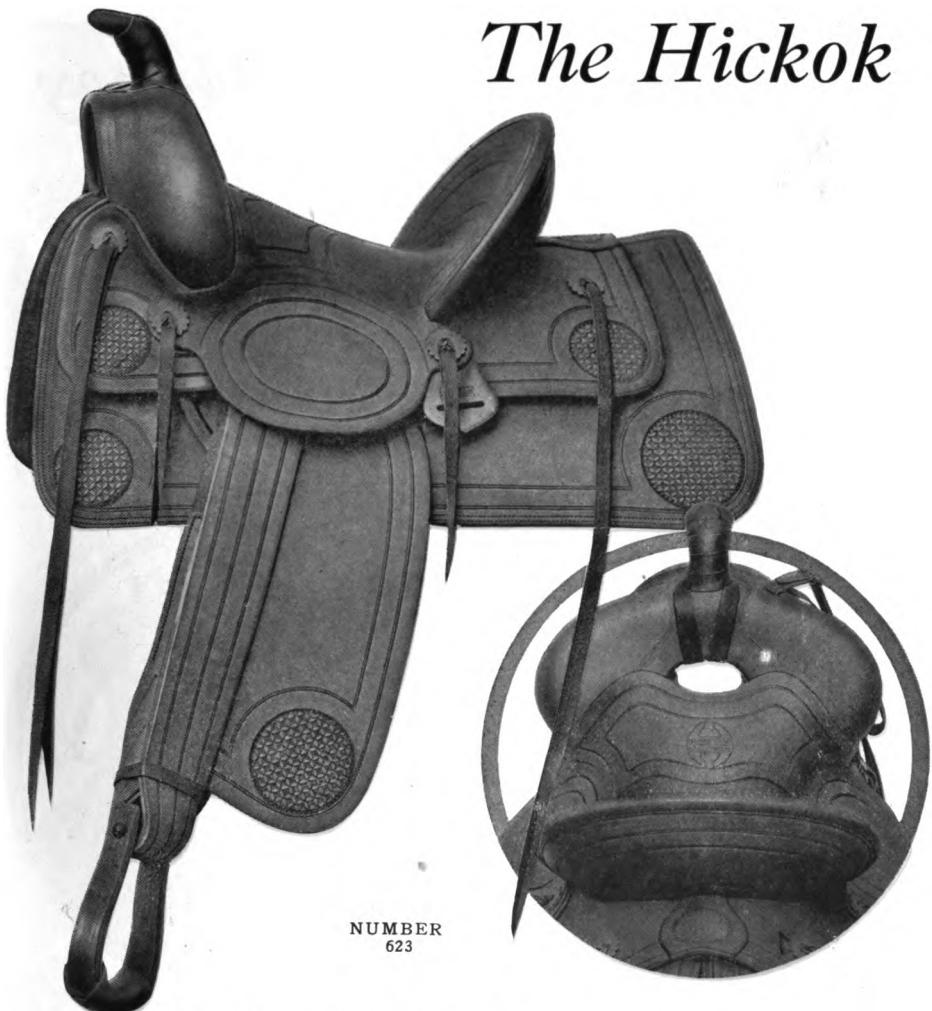

**RIGGING**—"E-Z"  $\frac{3}{4}$ , or round or flat ring. Flat plate rigging, \$2.50 extra.

**PRICE**—As shown ... **\$76.50**  
With square skirts, \$8.00 extra.

"**U-TELL-'EM**"—There is a demand over the country for all around saddles. That is, saddles built on trees which will fill the bill in first class shape for riding bad horses and at the same time give A-1 service for roping and other work. This tree is designed to meet the above requirements, and it has proven mighty popular and satisfactory. The fork is built on the plan of the regular Hamley Canutt fork except that it is set down low. The cantle is 4 inches high. This same tree can be had in other saddles, and we recommend it very highly for general purpose work. If you want a saddle just like this with a dished cantle, order a New Low Hamley Bronc tree instead of the New Low Hamley Canutt, as pictured.

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

# The Hickok

**T**HE HICKOK—This saddle, just because it is not decorated with a lot of stamping, is not to be classed as a cheap saddle. This rig is made with just as much care, and the materials are selected with the same scrutiny as are the materials which go into the highest priced saddle shown in this book. This rig is made for the man who wants quality, but does not want to pay for decoration. If you prefer some other tree than the Montana as shown in the picture, make that known when you order and select a tree from some other saddle of which you like the shape. We are right here to give you what you want, and all you need do is tell us what that is when you order.

#### SPECIFICATIONS

**TREE**—Hamley Improved Montana with 16-inch fork, cantle 5 inches high.

**WEIGHT**—About 37 pounds.

**SKIRTS**—15 inches deep by 28 to 30 inches long. (Exact length depends upon seat measure).

**STIRRUP LEATHERS**—Heavy selected, first class stock, full three inches wide, half double style.

**SEAT**—Solid one piece with cantle and side jockeys.

**RIGGING**— $\frac{3}{4}$  "E-Z" style. Either round or flat ring rigging, same price. Full double or  $\frac{3}{4}$  double rigging, \$3.50 extra.

**PRICE**—With round cornered square skirts, as shown ..... \$85

# *The Easy Money*

***"Easy Money"  
is the  
most popular  
Hamley  
Saddle***

NUMBER  
548

#### SPECIFICATIONS

TREE—Hamley Bronc. Cantle 5 inches high, with  $2\frac{1}{2}$ -inch dish.

WEIGHT—About 32 pounds.

SKIRTS—Small round shape.

STIRRUP LEATHERS—Heavy selected stock, full 3 inches wide, half double style.

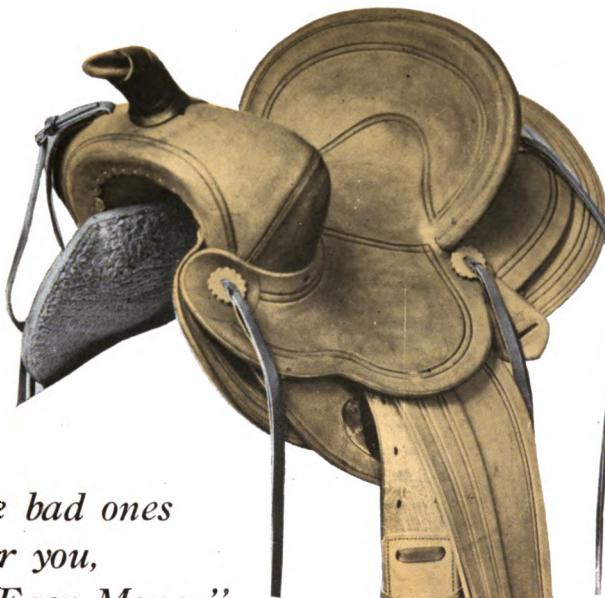

SEAT—Solid, one piece with front jockeys, side jockeys and cantle.

PRICE—As shown ..... \$72

With square skirts ..... \$80

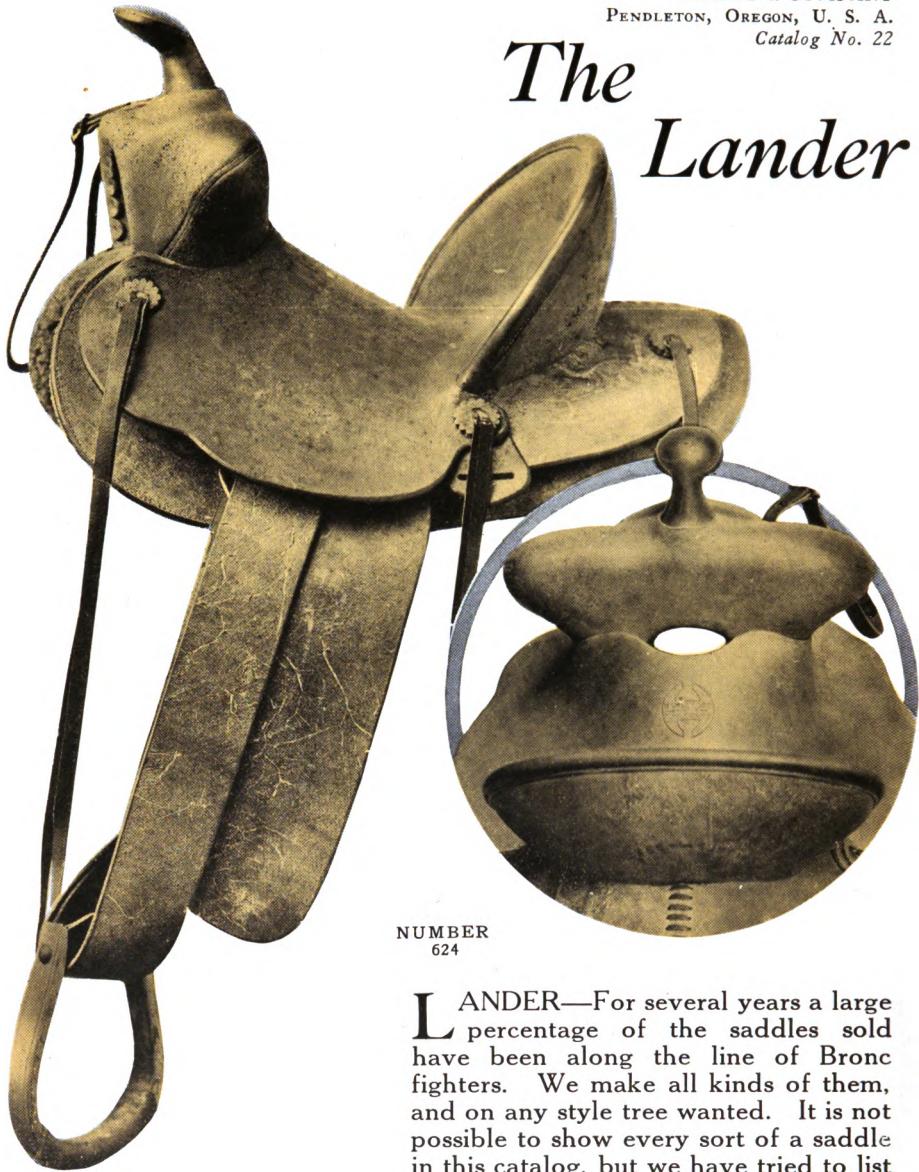

—another view of  
“Easy Money”

*If the bad ones  
bother you,  
try “Easy Money”*

**E**ASY MONEY—This saddle has held the lead in number of sales for nearly two years. It is low in price, yet is just as good a saddle, when it comes to quality and workmanship, as can be made. The cost of it is put into materials and workmanship rather than in decoration. Take particular note of the shape of the seat and the comfortable, hollowed-out shape of the cantle. One peculiar feature of these saddles with “cut in” forks is the fact that you should order them considerably shorter than trees such as the Montana, Taylor, Jones, etc., on which the forks extend down low on the bars. In the saddles like the one pictured here and others made on similar trees, one sits up close to the fork and a long seat is not needed. You can surprise the bad ones if you ride them in a saddle like this.

# The Lander

NUMBER  
624

#### SPECIFICATIONS

TREE—Special Kane with 15-inch swell fork, and extra leg cut at base of swells. The cantle has extreme dish and is extra wide.

WEIGHT—About 34 pounds.

SKIRTS—Small round cut.

STIRRUP LEATHERS—Full 3-inch selected stock, half double style.

SEAT—Solid one piece, with front jockeys, side jockeys and cantle.

RIGGING—Single, either  $\frac{3}{4}$  or center fire styles, with round or flat rings, or  $\frac{3}{4}$  "E-Z" rings.

PRICE—Including an extra pair of 2-inch stirrup leathers which attach to special dees placed under front jockey, to be used in contest work ..... \$79

Less the extra stirrup leathers and without dees under front jockey ..... \$73.50

**L**ANDER—For several years a large percentage of the saddles sold have been along the line of Bronc fighters. We make all kinds of them, and on any style tree wanted. It is not possible to show every sort of a saddle in this catalog, but we have tried to list enough so that most people will find about what they want. The saddle shown here is a very popular style with lots of riders, and you can see by the way the fork and cantle are shaped that the rider has the advantage of the horse when riding this saddle. One thing to watch when ordering trees of this style, or like the Hamley-Bronc, is the seat measure. Be sure not to get them too long. The extreme under cut on the fork makes a 13-inch tree about as large, or even larger, than some 14-inch trees in other styles.

# *The Money Getter*

**M**ONEY GETTER—  
This saddle is not intended for anything but contest work or bucking horse riding. It is a good tough one for that purpose, however, and will bring home the bacon.

All you need to do is get in and shut the door. It is the very saddle used by some top-notchers, and has helped them win their fame as real bronc riders. The price looks a little high compared to the appearance of the saddle. Please consider, however, the fact that nearly all parts of the saddle are doubled, and you will understand that a lot of leather is used in the making.

#### SPECIFICATIONS

TREE—Contest Special, high fork, lots of leg room, 5-inch cantle, medium dish.

WEIGHT—About 28 pounds.

SKIRTS—Medium weight saddle leather, cut to fit over bars just to the edge of the back jockeys.

STIRRUP LEATHERS—Skirting leather, covered with pearl chap leather, rough side out. Made up half double style, 2½ inches wide, either to buckle or lace. Fenders made of skirting leather, covered with pearl chap leather, rough side out.

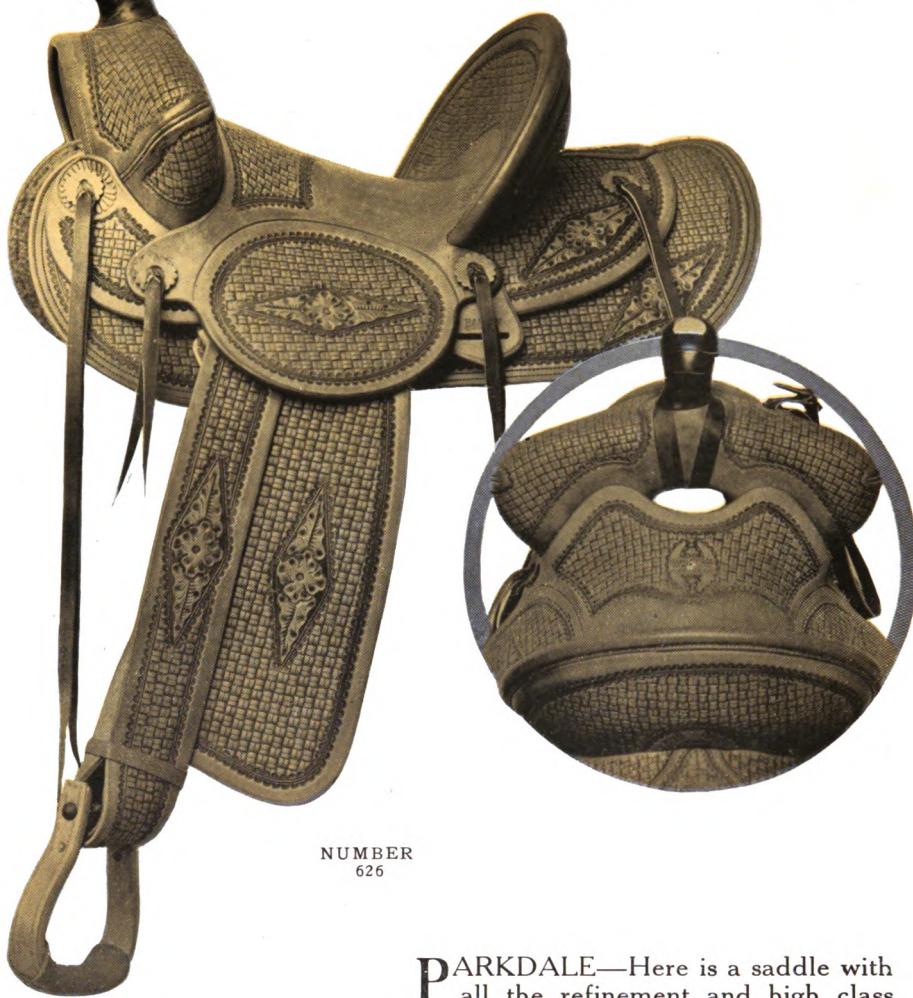

SEAT—Skirting leather covered with pearl chap leather, rough side out. Made all one piece with front jockeys, side jockeys and cantle.

RIGGING—Ordinarily Hercules flat ring, center fire. Other styles to suit customer.

STIRRUPS—Full leather covered, extra narrow round or flat bottom.

PRICE—As shown ..... \$75

# The Parkdale

## SPECIFICATIONS

TREE—Hamley Improved Ellensburg, with 16-inch swell fork, 5-inch cantle.

WEIGHT—About 35 pounds.

SKIRTS—Medium large, round.

STIRRUP LEATHERS—Selected from prime heavy saddle leather, full three inches wide, half double style.

SEAT—Solid one piece, with side jockeys and cantle.

RIGGING— $\frac{3}{4}$ ,  $\frac{5}{8}$ , or Center Fire, round or flat rings, or  $\frac{3}{4}$  "E-Z."

PRICE—As shown and described ..... **\$78.50**  
Square skirts, \$8.50 extra.

PARKDALE—Here is a saddle with all the refinement and high class workmanship that it is possible to put into a saddle. Some time is saved in putting on this style of stamping rather than fine flower work, but as to the quality of material, you could not buy a better rig. The Ellensburg tree shown is one of the most popular all-round styles ever made, and before the advent of special designs and freaks in trees, this was the favorite with the professional bronc riders. If you prefer some other style tree, just tell us about it in your order and it will be furnished.

# The Let 'er Buck

NUMBER  
549

**L**EAT 'ER BUCK—For several years this saddle has been one of the favorites in our line of bronc riding saddles. A good many riders are of the opinion that a bronc saddle should be made of soft leather with the rough side out. That is why this particular style came to be. The latigo leather used is especially tanned in a heavy weight and will give good service for ordinary use. If you buy the saddle, however, intending to use it for all-around work, we recommend saddle leather rather than latigo leather. The latigo leather makes a mighty soft, pliable job, and is exceptionally good for a bronc riding rig.

#### SPECIFICATIONS

TREE—Hamley Canutt tree with 14 $\frac{3}{4}$ -inch swell fork, 5-inch cantle.

WEIGHT—About 31 pounds.

SKIRTS—Small, round.

STIRRUP LEATHERS—Selected stock, full 3 inches wide. When made of latigo leather fenders are doubled.

SEAT—Solid, all one piece, with front jockeys, side jockeys and cantle.

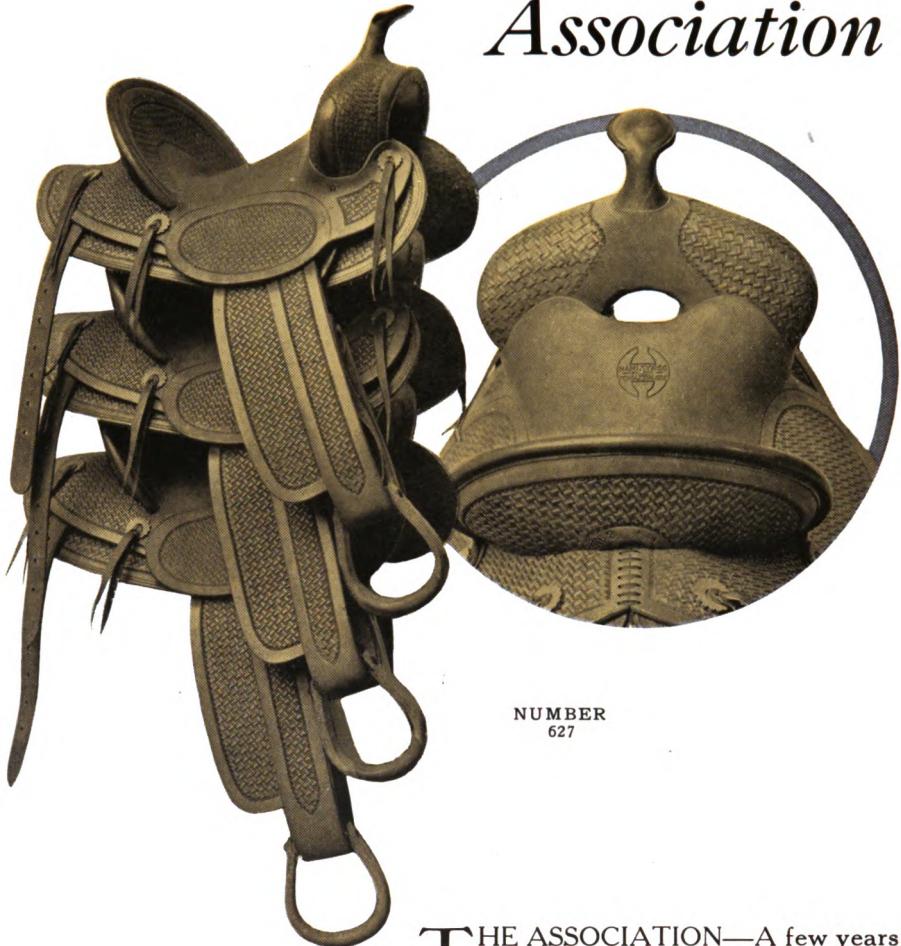

RIGGING—"E-Z" or round or flat rings.

STIRRUPS—No. 30, No. 37 or No. 806 with leather covered bottoms and rollers. Full leather covered stirrups are shown, but not included in price. If wanted, add \$2.50.

PRICE—As shown ..... **\$70**

(Specify in your order whether you wish saddle made of latigo leather or saddle leather. Unless otherwise ordered, will make of latigo leather, rough side out, and if skirting leather, rough side out. If you want smooth side out, please say so, no matter which leather you order.)

# The Association

NUMBER  
627

## SPECIFICATIONS

TREE—Hamley Improved Ellensburg, 14-inch swell fork, 5-inch cantle.

WEIGHT—About 30 pounds.

SKIRTS—Small, round shape.

STIRRUP LEATHERS—Selected heavy stock, full 3 inches wide, half double style. Ordinarily made with buckles. If you want them to lace, specify same in your order.

SEAT—Solid one piece, with front jockeys, side jockeys and cantle.

RIGGING—Either "E-Z" or ring style,  $\frac{3}{4}$ , with flank attachment fitted with leather cincha. Buckle at each end.

PRICE—As shown ..... \$70  
Without flank cincha ..... \$67.50

THE ASSOCIATION—A few years ago the Round-Up and Frontier Show associations of Cheyenne, Wyoming; Boise, Idaho; Walla Walla, Washington; and Pendleton, Oregon, decided that ordinary saddles, made more along the type of those used on the range, should be used in the bucking contests at frontier shows. We were awarded the contract to furnish the saddles, and those pictured here are a part of the lot furnished. We made a total of ten of these and they have been used not only by the associations mentioned, but by others as well, such as Kansas City, Missouri; Weiser, Idaho, etc. For those intending to enter contests at any of the places mentioned, some practice riding an Ellensburg tree will not be amiss.

# The Fairmont

NUMBER  
550

**T**HE FAIRMONT—This is a regular bronc saddle, made on a bronc riding tree. Quality is first class throughout and workmanship is of the very best. It does not embrace such features as the one-piece seat and front jockeys, however, and one or two other features shown in some of the higher priced saddles. It is popular with some trade and is a good, dependable rig throughout. If you prefer some other tree, just tell us in your order what style you want and it will be furnished.

#### SPECIFICATIONS

TREE—Hamley Canutt, 14 $\frac{3}{4}$ -inch swell fork.

WEIGHT—About 31 pounds.

SKIRTS—Small, round.

STIRRUP LEATHERS—Selected heavy stock, full 3 inches wide,

SEAT—Solid one piece, with side jockeys and cantle.

RIGGING—"E.Z." or flat Hercules bronze ring or round ring.

PRICE—As shown .. \$66.50

With squares skirts, 14 inches by 28 inches ..... \$74.00

Regularly made of saddle leather, rough side out. If you want smooth side out, please say so in your order.

# *The Baldpate*

NUMBER  
551

#### SPECIAL BRONC SKELETON, NUMBER 551—(Old Number 451)

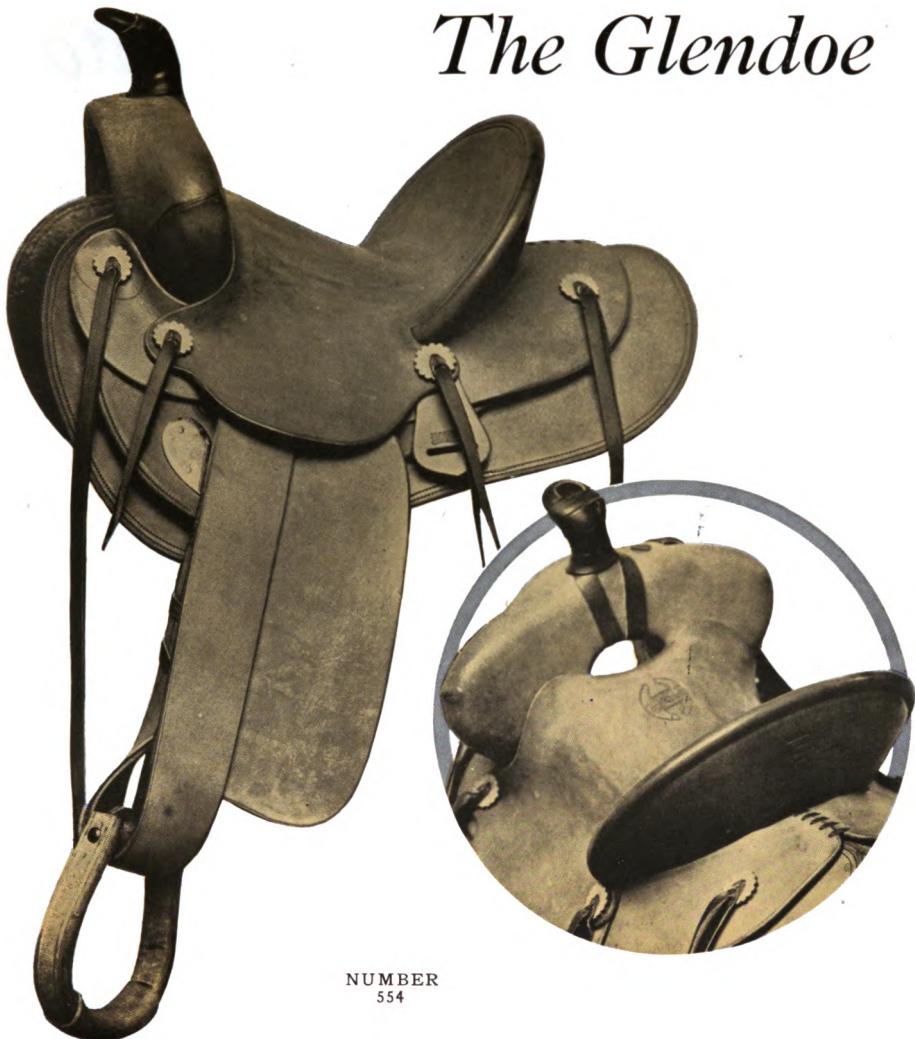

Famous Hamley Canutt tree, 14 $\frac{3}{4}$ -inch swell. Weight about 21 pounds. Plain fork and back cantle. Three-quarter cover on seat and front cantle. All stock of first selection, rough side out. No fenders and no skirts. Bars wool skin lined. Soft mohair cincha. Stirrups No. 30, No. 37 or No. 806. (Wood stirrups as narrow as  $\frac{7}{8}$ -inch bottom if desired.)

PRICE—As shown ..... \$43.50  
Same saddle with 6 x 17-inch fenders ..... \$49.00  
Fork will be covered where leg strikes, if desired. No additional charge. Seat extended over top of cantle, \$2.50 extra.

Extras on this saddle, if wanted:—

Covered or wrapped horn .....	\$ 2.00
Full covered fork and gullet .....	\$ 5.00
Full seat, covered and leather bound cantle .....	\$ 3.00
Rope strap on fork .....	\$ .35
Skirts like on No. 549, page 53 .....	\$11.00

# The Glendoe

**T**HE GLENDOE—Some people do not care for a lot of stamping and fancy work, but do demand strictly high grade materials and high class workmanship. This saddle embodies everything one could want in a saddle except the decoration. It is made for the particular man who has a lot of hard work to do, and it will stay with him through thick and thin while he does it. The seat view shows the same saddle as the side view except that it is made on a Hamley Ellensburg tree, with 16-inch swell fork. The regular fork is 14 inches wide and this 16-inch swell adds \$2.00 to the price.

#### SPECIFICATIONS

**TREE**—Hamley Improved Ellensburg, with 14-inch swell fork, 5-inch cantle.

**WEIGHT**—About 34 pounds.

**SKIRTS**—Regular round with California dip.

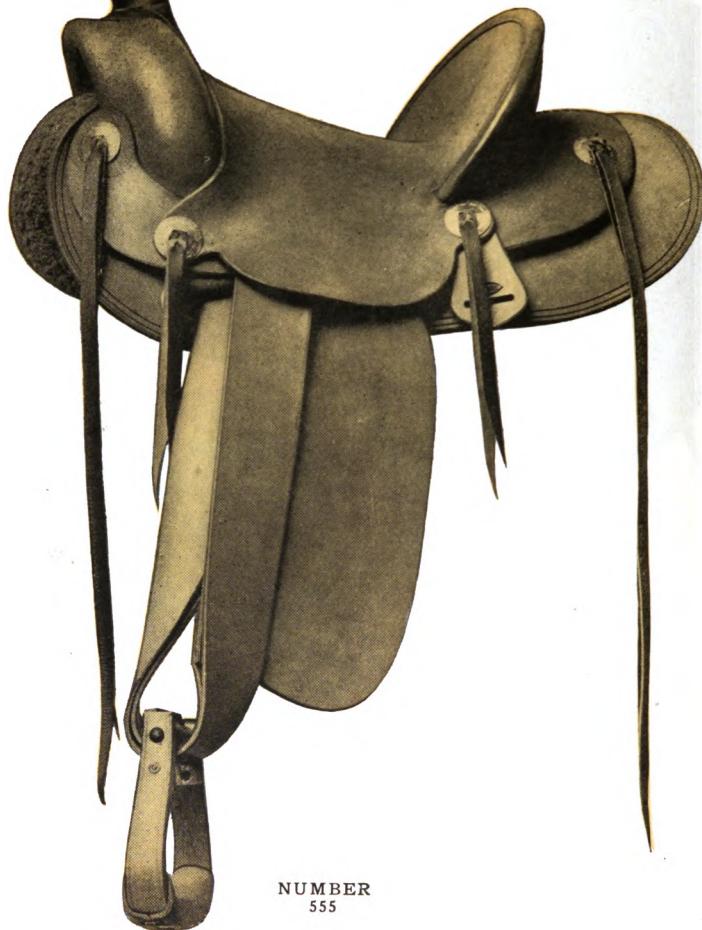

**STIRRUP LEATHERS**—Selected heavy saddle leather, full 3 inches wide.

**SEAT**—Solid one piece, with side jockeys and cantle.

**RIGGING**—Hamley flat plate. If you want "E-Z" or flat or round ring, deduct \$2.50 from prices quoted.

<b>PRICE</b> — .....	<b>\$75</b>
With square skirts .....	\$84.00

# The Santa Rita

**T**HE SANTA RITA—This is another saddle of quality, just as good as any fancy saddle shown in the book. The materials throughout are of the first selection and the workmanship is of the highest order. The tree on which it is shown is built so the saddle sets down close to the horse, and the saddle is exceptionally good for roping and other hard work. If you want this same saddle built on some other style tree, just say so in your order. If you want rawhide binding, just mention it in your order. If you want full double or three-quarter double cincha rigging, add \$3.50 to the prices.

#### SPECIFICATIONS

**TREE**—Hamley Moore with 14-inch swell fork and cantle 4 inches high.

**WEIGHT**—About 33 pounds.

**SKIRTS**—Regular size, round shape.

**STIRRUP LEATHERS**—Selected first grade heavy saddle leather, full 3 inches wide and full double style. If you want half double style, deduct \$1.50 from our prices.

**SEAT**—Solid one piece, with side jockeys and cantle.

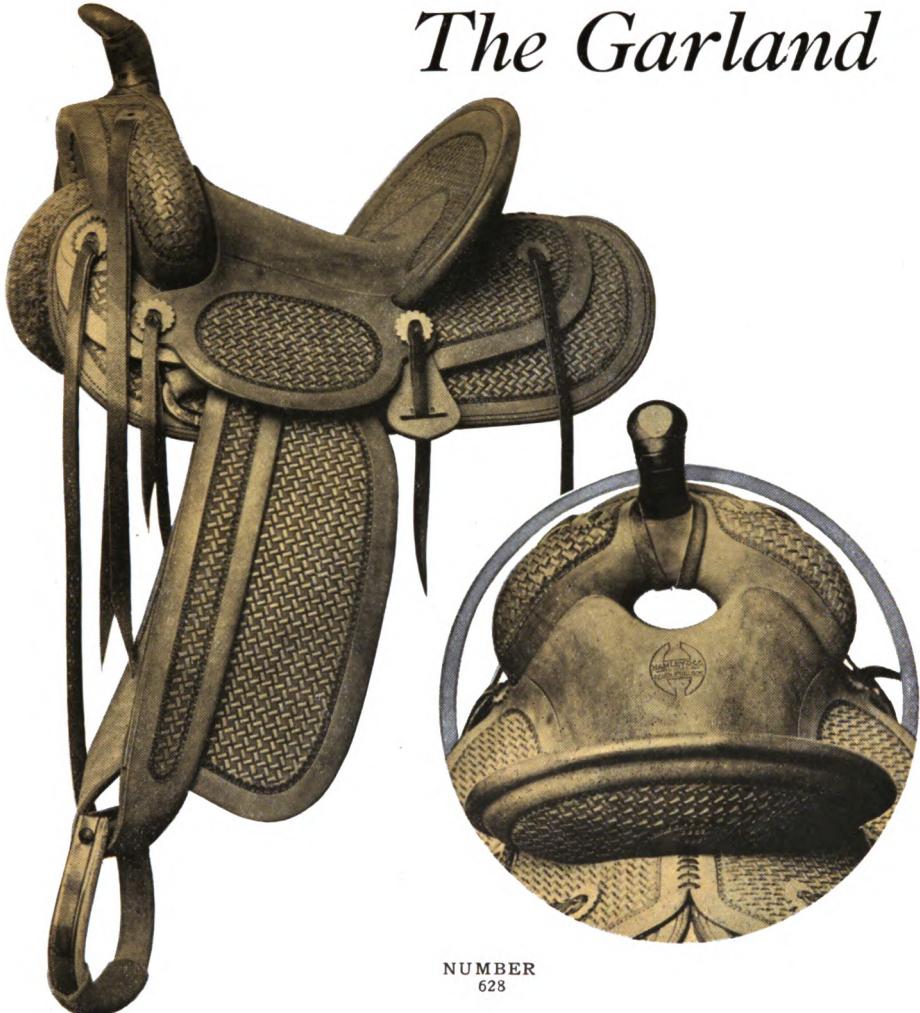

**RIGGING**—“E-Z” or flat Hercules rings or round rings.

**PRICE** as shown, with silver plated conchas.... **\$74**

Without conchas ..... **\$71.50**

For square skirts, add **\$8.00**.

# The Garland

**T**HE GARLAND—This saddle is one of the old favorites in our line. It is made up from start to finish to fill the bill in the right way for the man who has the usual amount of hard steady work to do. The materials are first class throughout and the saddle is guaranteed in every way. If you want the seat made in one piece with front jockeys, add \$2.00 to the price for round skirts and \$3.00 to the price for square skirts. The design of stamping is neat but the stamp used is so made that it does not cut the grain of the leather. If you want some other tree, just mention the fact when sending your order.

#### SPECIFICATIONS

**TREE**—Hamley Improved Taylor with 14-inch swell fork, 5-inch cantle.

**WEIGHT**—About 32 pounds.

**SKIRTS**—Regular size round shape.

**STIRRUP LEATHERS**—Selected heavy stock, full 3 inches wide.

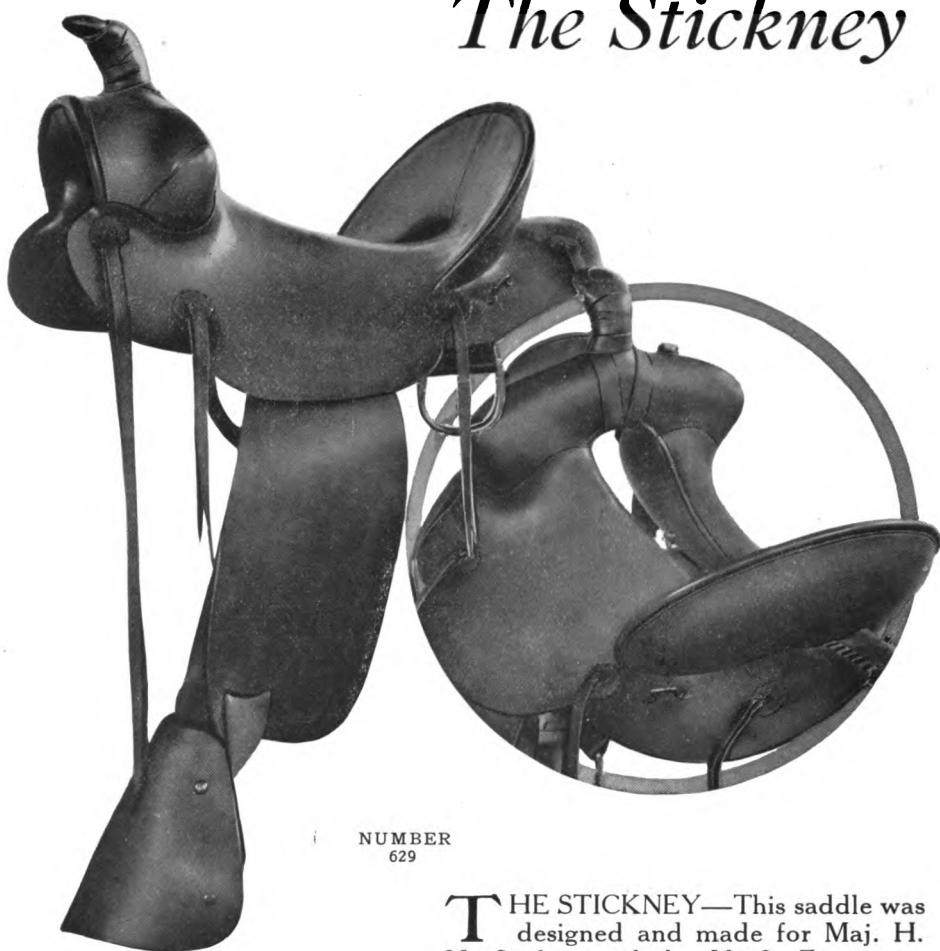

**SEAT**—Solid one piece, with side jockeys and cantle.

**RIGGING**—"E-Z" or flat Hercules bronze rings or round rings.

**STIRRUPS**—No. 30, 37 or No. 806, leather covered bottoms and rollers.

**PRICE**—As shown ..... **\$69**  
With square skirts ..... **\$78.00**

# The Stickney

NUMBER  
629

## SPECIFICATIONS

TREE—Special Hamley Ellensburg, 15-inch swell fork, extra leg cut under swells, cantle 5 inches high.

WEIGHT—About 27 pounds.

STIRRUP LEATHERS—Selected stock,  $2\frac{1}{2}$  inches wide, placed under fenders, half double style.

SEAT—Open seat stitched to leather coverings on under side of bars.

RIGGING— $\frac{3}{4}$  double "E.Z." For single "E.Z." or ring rigging, deduct \$3.00 from price.

PRICE—As described ..... **\$67.50**

**T**HE STICKNEY—This saddle was designed and made for Maj. H. H. Stickney of the U. S. Engineers. The major is a heavy man, weighing more than 200 pounds. He likes the riding qualities of the regular McClellan army saddle; he is also familiar with the disadvantages of that particular saddle, and this rig was made for him to embody the good points of the McClellan and the good points of the regular western stock saddle. The saddle is light in weight, yet has all the strength of the very heaviest rigs. The bars of the tree are completely covered with saddle leather, as are also all other parts of the tree. For those who have use for a really comfortable light weight saddle, yet need one with the utmost in strength, this rig will fill the bill in every way.

# Lightning Bug

## PONY EXPRESS SADDLE

We make a saddle very similar to the relay saddle for Pony Express work. It is made on the relay tree, but has light weight stirrup leathers and fenders and not equipped with rubber cincha.

PRICE ..... \$40.00

NUMBER  
532

## SPECIFICATIONS

TREE—Hamley's Relay.

WEIGHT—About 20 pounds.

SKIRTS—All one piece with extensions down sides. One end of the cincha laces to the off skirt and the adjusting rings to which the cincha hook fastens are laced to the near skirt.

STIRRUP LEATHERS—These are also laced to the extensions on the skirts and your stirrups are always right where you want them when mounting.

SEAT—Extended over top of cantle and fastened around back with brass nails.

RIGGING—Hamley's Relay, special design rubber cincha included with saddle.

PRICE—As described ..... \$45

Without Cincha ..... \$39.00

SPECIAL CINCHA including ring piece for attaching to any ordinary saddle to convert it into a rubber cincha relay saddle ..... \$9.50

**T**HE LIGHTNING BUG—If you will examine the relay saddles and pony express saddles displayed on the tracks over the West by contestants following the wild west shows, you will find that nearly ninety per cent of them are of our make. Our saddles for this work are improved upon from year to year and probably even by the time this catalog is issued, some slight improvements will have been made in this particular saddle. We reserve the right in filling orders for this saddle to include improvements, providing no extra cost is attached. If an extra charge is to be made, we shall advise you before filling your order.

## *The Grub-Pile Call*

(By E. A. BRININSTOOL)

There's lots o' songs the puncher sang in roundin' up his herds,  
The music wasn't very grand, an' neither was the words.  
No op'ry air he chanted when at night he circled 'round  
A bunch o' restless longhorns that was throwed on their bed ground.  
But any song the cowboy on his lonely beat woald bawl,  
Wa'n't half as sweet as when our cook would start the grub-pile call.

I've heered 'em warble "Ol' Sam Bass" fer hours at a time,  
I've listened to the "Dogie Song," that well-known puncher rhyme.  
"The Dyin' Cowboy" made me sad, an' "Mustang Gray" brung tears,  
While "Little Joe the Wrangler" yet is ringin' in my ears.  
But of the songs the puncher sang, I loved, the best of all,  
That grand ol' chorus when the cook would start the grub-pile call!

There wasn't any sound so sweet in all the wide rangeland;  
There wa'n't a song the puncher was so quick to understand.  
No music that he ever heard so filled him with delight  
As when he saw the ol' chuck-wagon top a-gleamin' white,  
An' like a benediction on his tired ears would fall  
The sweetest music ever heard—the welcome grub-pile call!

I've laid at night an' listened to the lowin' of the steers,  
I've heered the coyote's melancholy wail ring in my ears.  
The croonin' of the night wind, as it swept across the range,  
Was mournful-like an' dreary, an' it sounded grim an' strange.  
But when the break o' day was near, and from our tarps we'd crawl,  
The mornin' song that charmed us was that welcome grub-pile call!

(From "Trail Dust of a Maverick," by E. A. BRININSTOOL)

See page 132.

"E-Z" Rigs and leathers complete, ready to put on saddle .....	7.00	.35
"E-Z" rigging, complete, attached to your old saddle.....	8.50	

When ordering either "E-Z" rigging or "Flat" rigging complete, intending to attach it to your saddle yourself, be sure to give measurements of your saddle, as follows: Seat measure from fork back to cantle; leg room from center of swell back to cantle edge at tie button on side jockey; and from front edge of fork, measuring under seat, to back side of cantle at center.

## Hamley Flat Rigging Plate

Hamley's Flat Rigging Plate  
For real honest service

*The friend of your horse, because—*

It cannot make ring sores.

*Your friend, because—*

It makes up so smoothly that the large lumps under the side jockeys, always found on saddles with ring riggings of any kind, are entirely eliminated. Just think what a difference this makes in the seat of your saddles and the real riding comfort it assures.

*Summed up it is—*

**The Ideal Rigging**

Furnished on any high grade saddle in this catalog for \$2.50.

No bumps or lumps on this rigging, just a smooth wide piece of heavy leather with a specially constructed plate to take the strain of the latigos. The plate has a lip which projects over the edge of the hole through which the latigo passes and is attached to the heavy leather by hand rivets at the points of strain—the strength of the rigging is beyond question and the absence of lumps, caused by doubled straps on other riggings, eliminates all chances of sore sides.

Examine any saddle you have rigged with rings, and notice the large lumps under the side jockeys—these lumps are the cause of so-called "ring sores" and tend to tire the rider. The Flat rigging avoids all this unnecessary bulk and is the rigging of today.

Furnished for \$2.50 on any of the best grade saddles shown in this catalog.

The Flat rigging is also furnished with three-quarter double attachment for \$3.50 additional—including cincha. Making the total additional cost for the Flat rigging—three-quarter-double style—\$6.00.

## Hamley's Famous "E-Z" Rig

NUMBER 1  
"E-Z" Rigged

NUMBER 2  
Not "E-Z" Rigged

The above pictures are to show the difference in the general swing and appearance of saddles rigged "E-Z" and otherwise.

Saddle No. 1 is our make and is "E-Z" rigged. Notice the good forward swing of the stirrup leather and the smooth side jockey over which the leg passes. A saddle like this is almost "broke in" before it is ridden.

Now look at saddle No. 2. This is not our make and is "ring" rigged. Look at the hang of the stirrup leathers and the way they are held back by the ring. This is what causes most stirrup leathers to break off at the lace holes and makes the saddle hard to "break in."

Be sure to order your saddle three-quarter or five-eighths "E-Z" rig.

If you want double rig order "E-Z" three-quarter double. See below.

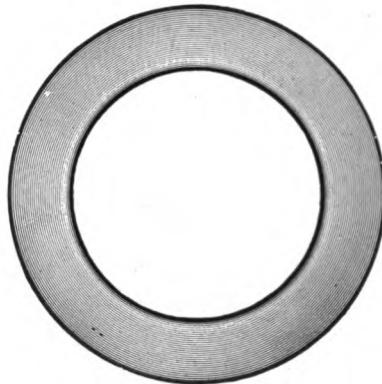

NUMBER 3

The "E-Z" rigging is being used by thousands of riders in all parts of the country and giving perfect satisfaction—if it didn't we wouldn't try to sell it, as it would do our business more damage than it would do good.

The shape of "E-Z" rings makes them the strongest rings used for saddle riggings  
"E-Z" rings sold alone—nickel \$2.25 pair; X. C. plate \$1.50 pair.

Spanish and full double rigging is furnished with round or flat rings only, not "E-Z." Postage and insurance on rings, 10 cents pair.

NOTE—We furnish ordinary ring rigging when wanted, on any saddle shown in catalog. Either regular round rings or flat rings.

**Improved "HERCULES BRONZE"  
Flat Rigging Ring**

Some people like flat rings on their saddle and we are glad to furnish them when wanted.

The ring shown here is made of "Hercules Bronze," a new and very tough metal which will not corrode and not rust. Furnished on any saddles quoted with "E-Z" rigging at no extra charge.

Per pair, \$1.25. Postage, 10 cents. State for what style rigging wanted when ordering rings alone, so we shall know what size to send.

Dell, Mont., Mar. 10, 1922.  
HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: I received my saddle I ordered from your company. It is the finest saddle I ever rode. I am well pleased with it in every way. There is about a dozen different ones who want to beat me out of it. I tell them where they can get one just like it. Yours truly,

(Signed) E. J. LOHR.

Number 21—Cincha  
Buckle Each (post-  
paid) ..... 30c

All of the trees shown in this catalog in saddles priced at \$60.00 and over, are the best hand made trees produced in the United States and are ABSOLUTELY GUARANTEED TO GIVE PERFECT SATISFACTION AND WILL NOT HURT A HORSE. We can buy these same style trees, under the same names, for \$2.00 to \$3.00 less on each tree, but they will not give the same satisfaction and service. In giving you the better tree in your saddle we are giving you an article you will be proud to own; an article which will make you a "Hamley booster and a friend of "Hamley goods. We figure this is worth more to us than the difference in tree prices and we know it is worth a great deal more to you to get a saddle with one of these extra high grade trees than it is to save the two or three dollars and take the chances on getting a saddle that is liable to hurt your horse.

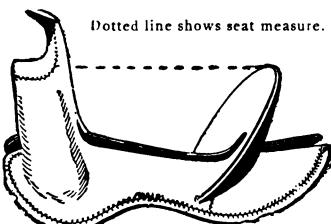

Get a "Hamley" Saddle, "E-Z" rigged, or with Hamley's Flat Rigging Plates, and your troubles with sore backs, sore sides, etc., are over.

## Saddle Tree Measurements

PLEASE NOTE CAREFULLY

Dotted line shows seat measure.

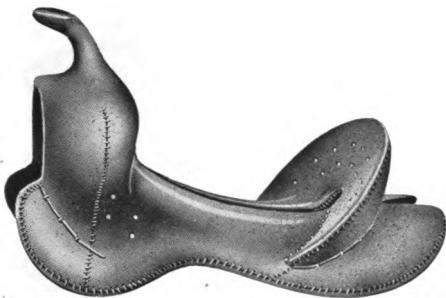

When measuring a saddle which is already made up, place the measuring stick at a point on the fork about one inch above the opening and measure from there to the stitching on the inside of the cantle—not to the back side of the cantle binding.

In specifying the length tree you want in your saddle, be sure and get it right. Measure as shown in the illustration—that is, from a point on the fork, about one inch above the arch, which goes over the top of the horse's withers, to the inside of the top of the cantle.

Remember, if you are ordering an Ellensburg tree in your saddle, you should specify about  $\frac{1}{2}$ -inch shorter seat measure than when ordering an ordinary swell fork like the Montana, Taylor, etc. If you are ordering a Canutt, Hamley Bronc, Contest Special, etc., order about 1 inch shorter. See measurement chart in front of catalog.

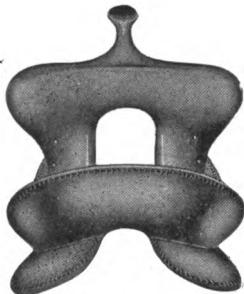

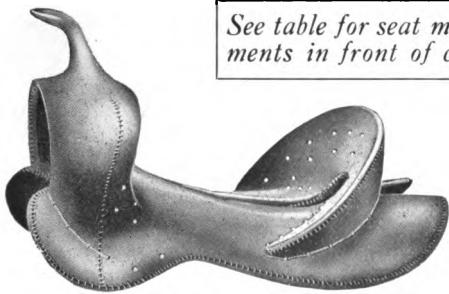

## All-Around Trees

**Hamley's New Low Canutt Tree**

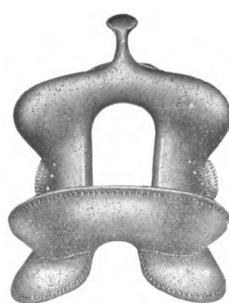

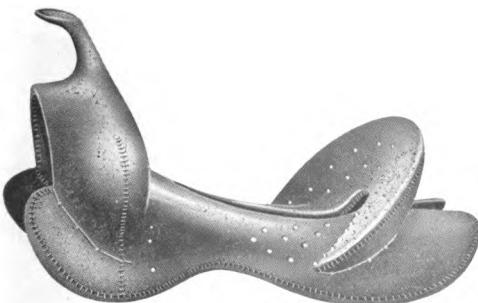

Here is that famous all round tree which we have talked so much about in different circulars and letters during the last year. It is a sturdy, strong tree, built down close to the horse, yet with the earmarks of a bucking horse tree. The low fork makes it first-class to use in a roping saddle, and the special shape of the fork makes it A-1 for riding the bad ones. The cantle is ordinarily just four inches high on the back side. If you want a five-inch cantle on your saddle, just say so when you order. The swell is  $14\frac{3}{4}$  inches wide, and the price of the tree is \$16.00

*See table for seat measurements in front of catalog.*

**New Low Hamley-Bronc Tree**

This is the same sturdy sort of a tree as the Low Canutt pictured and described above. The only difference is that this new Low Bronc has a dished cantle. The cantle is ordinarily 4 inches high on the back side, but you may have a 5-inch cantle in your saddle on this tree if you wish. The swell is  $14\frac{3}{4}$  inches wide. Notice some of the fine new saddles shown in this book, which are built on this tree. Price \$16.50.

**Hamley's Low Ellensburg Tree**

Some of the most popular saddles we ever built were made on special Ellensburg trees, and here is one of the best of those specials. The fork is made just a little lower than the regular Ellensburg fork, and the cantle is four inches high. This is a dandy for roping, as well as for taming the wild ones. The swell of the fork is 16 inches. Price \$15.50.

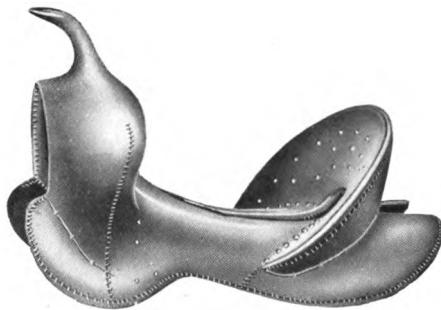

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

## Contest Trees

**Hamley Canutt Tree**

Regular swell  $14\frac{3}{4}$  inches. Special fork, which is high on the back side and practically flat. Has slightly flattened portion on edge of swell where leg strikes and has proven a popular tree, especially for riding bad horses. The regular cantle on this tree is 5 inches high on back side and is shaped the same as the Ellensburg cantle. Made on Hamley Special bars and will stay where you put it. Price, each \$16.00

**Hamley-Bronec Tree**

Regular swell and fork same shape as on Hamley-Canutt tree. The cantle is the only feature of this tree which makes it different from the Hamley-Canutt. The cantle is made with  $2\frac{1}{2}$ -inch dish and is  $14\frac{1}{2}$  inches wide. Just the tree you need in your saddle if you make it your business to ride the bad ones and want to stay on top. Price, each \$16.50

## Hamley Improved Ellensburg Tree

**Hamley Improved Ellensburg, 14-inch Swell. Price \$14.50**

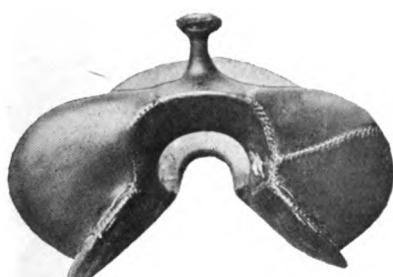

Our Improved Ellensburg tree is made with a high swell, which gives good leg room, and it can be used with a seat fully one-half inch shorter than most other swell fork styles. It is a favorite with hundreds of riders and we recommend it as being the most practical swell fork tree made. The regular cantle is medium straight and five inches high on the back side. A special tree can be furnished with four-inch cantle for \$1.50 extra. Regular swell is 14 inches; extra widths at 75 cents for each additional inch. (When put in saddles, \$1.00 extra for each inch of swell over width specified in description of saddle.)

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

## Hamley Improved "Montana" Trees

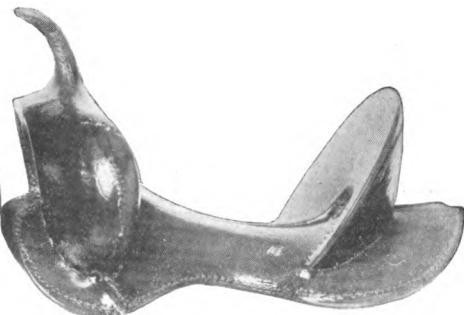

Hamley Improved Montana, 16-inch Swell. Price \$15.50

Hamley Improved Montana, 18-inch Swell. Price \$16.00

The Montana tree is intended for riders who favor a low swell on the fork. Notice the lower edge of the swell extends nearly down to the edge of the bar. The cantle is five inches high—measuring straight down from the top edge of the cantle to the top of the bars. The same tree is furnished with four-inch cantle for \$1.50 extra. Same tree may also be had with 14-inch swell fork. Wider swells furnished at 75 cents extra for each additional inch. (When made in saddles, \$1.00 extra for each inch of swell over the width specified in saddle description.)

## Hamley Jones Tree

Hamley Jones Tree, 15-inch Swell. Price \$15.50

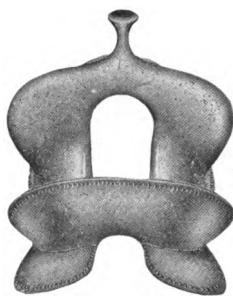

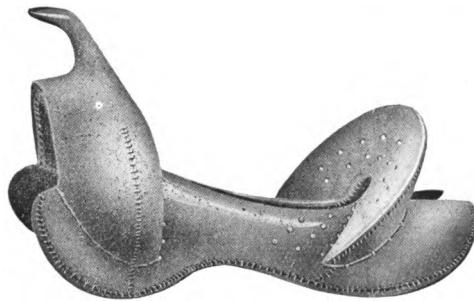

For riders who like a tree with back swell on the fork, there is no more practical tree made than the Hamley Jones. There is nothing freakish about the tree and it is a favorite with lots of the best riders in the country. The cantle is about the same as the Ellensburg—five inches high on the back side and the same tree is furnished with four-inch cantle for \$1.50 extra.

## Hamley Improved Taylor Tree

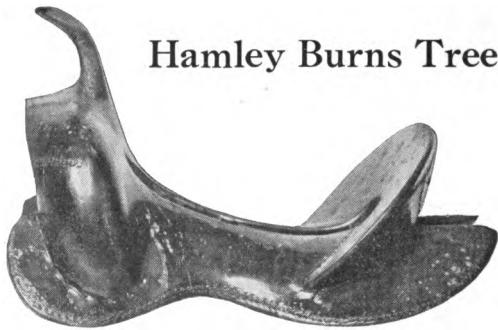

**Hamley Improved Taylor Tree, 14-inch Swell. Price \$14.00**

A good, common sense tree with medium slope cantle and the swell is high enough to afford good leg room. Cantle is  $4\frac{3}{4}$  inches high and regular fork has 14-inch swell; wider swells furnished in saddles only at an advance of \$1.00 for each additional inch over the width specified in saddle description.

**Hamley's Improved Low Taylor Tree**

Here is a new tree which has proven very popular, and it should. For strength, it cannot be beat, and it is made along the lines of a very popular Hamley-Taylor. The fork is a little lower than the regular style, and measures 16 inches across. The cantle is four inches high. A saddle built on this tree is shown on page 29. Price \$15.00

**Hamley Burns Tree, 12-inch Swell. Price \$13.50.**

The Burns is made for riders who like a low tree and who do lots of roping. The cantle is 4 inches high and the fork about the same as our Taylor except that the regular swell is 12 inches.

The Hamley-Moore tree is practically the same as the Burns except that the fork is 14 inches wide. Price \$14.00

The swell on both of these trees extends nearly to the bottom of the bars.

The Weatherly tree is something on the order of the Burns except that it has a narrow fork and the fork is about  $\frac{1}{2}$ -inch lower. The cantle slopes a little more and is also lower than the Burns. Two or three saddles are shown in the catalog which are made on the Weatherly tree. Price of this tree, \$14.00

The "M-C" Tree is the same as the Taylor except the cantle. The cantle of this tree is the same as the cantle on the Ellensburg. Price (14-inch swell) \$14.00

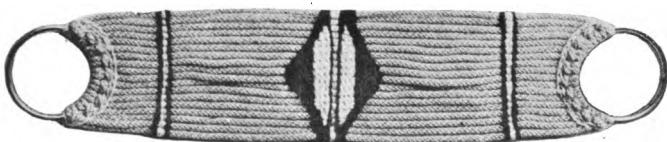

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.

Postage, 10c pair.

**NUMBER 12**

Heavy, Soft Angora Cord, for making your own cinchas.  
Made in lengths long enough for a 20-strand cincha, per bunch,  
\$1.50. Postage, 15 cents.

you will be surprised at the result. Price, postpaid, ..... \$3.00

In ordering quilts be sure to give size of your saddle seat and width of swell. To be sure of the right measurements for your quilt, also give measurements of your saddle seat as follows: Take the numbers 1, 2, 3, 4 shown above as the (1 and 2) string buttons at the base of fork and (3 and 4) as the string buttons at the base of the cantle. Give measurements from 1 to 2, 2 to 4, 4 to 3, and 3 to 1.

**NUMBER 7**

**NUMBER 14**

We return any amount sent for postage which is not used.  
Besides being a protection when riding bucking horses—a pair of rolls will make a great difference in everyday riding if the seat of your saddle happens to be too long.

**NUMBER 12**

## DETACHABLE SEAT QUILT

Does Your Saddle Fit Just Right?

Made of best grade soft chap leather with bark tanned wool skin to form the quilt. Sewed with heavy silk thread. Can be put on and taken off saddle by anyone in a few minutes. If your saddle doesn't exactly fit you, try one of these—

\$3.00

## BACK CANTLE POCKET

**NUMBER 7**

Cantle Pocket—Fastens on back cantle of saddle. Can be put on or taken off in five minutes. Just the thing for carrying staples, hammer, etc., or a good sized lunch. Price, each ... \$3.65 Postage, 40 cents. In ordering cantle pocket, give height of your saddle cantle on back side.

## BUCK ROLLS

**NUMBER 14**

Best grade of rolls, will fit any saddle and are easily attached. Welted tops, fancy stitched and stuffed with hair.

Style 1—Made with rings and strap for tightening.

Style 2—Instead of rings on top ends, this style has long ends for fastening under fork in front of seat. Price, either style ..... \$3.25 Postage, 25 cents

## Pure All-Wool Navajos

Genuine Navajo—Single or Double

Postage, 10 cents extra per pound. We return any amount not used. Singles weigh from  $2\frac{1}{2}$  to  $3\frac{1}{4}$  pounds. Doubles from 4 pounds to 7 pounds.

**GUARANTEED ALL WOOL WARP.** Navajos will not wrinkle and cause sore backs like the ordinary grades of cheap woolen blankets. They wear so long that they are really the cheapest to buy—to say nothing of the more satisfactory service they give,

Three grades, all wool.
No. 1 Grade, selected for good weave and quality, per pound .....
\$2.25
No. 2 Grade, real good but not quite up to No. 1 grade, pound .....
\$1.65
No. 3 Grade, good blankets but not equal to No. 1 and No. 2 grades, per pound .....
\$1.40

## Pure Curled Hair Saddle Pads

NUMBER 12

Pure Curled Hair Saddle Pad, 24x28 Inches

This pad is made of pure curled hair and is nearly one inch thick, but is very light, weighing only two pounds. Gall sores are quickly healed with the pad, by placing next to the sore, a piece of clean white cloth and leaving it there while the horse is in use. The air circulating freely under all parts of the saddle prevents scalding. Price, each .....

\$4.00  
Postage, 20 cents.

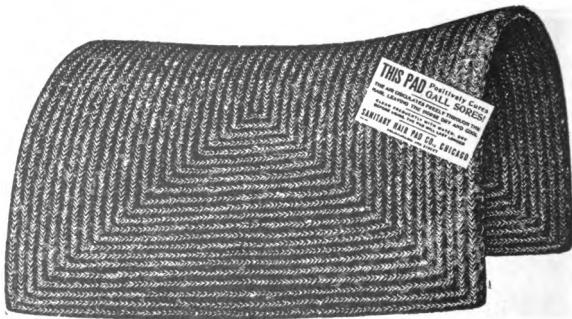

NUMBER 7

Pure Curled Hair, same as Number 12, but for square saddles. Size 29x30 inches. Price, each .....

\$4.25  
Postage, 25 cents

These pads are great for wear and are easily and quickly cleaned by placing in running water and wringing to loosen the dirt.

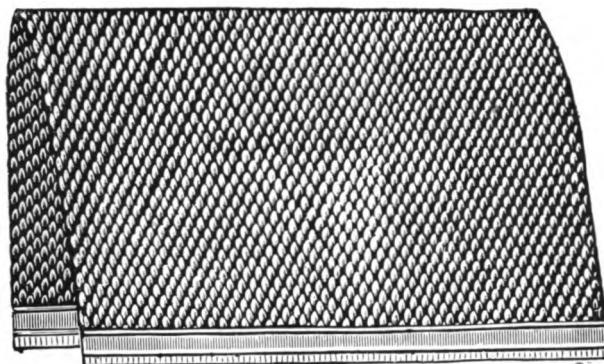

Leather chafes for taking wear of latigos put on either of above pads, \$1.00 extra.

NUMBER 7

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

## Woven Goat Hair (For Tender Backs)

### NUMBER 71

Poros woven saddle pad, made of Angora Goat Hair. The manner of the weaving of this blanket makes it very porous, which allows free circulation of air under the saddle, which prevents scalding. The healing properties of Angora wool are well known. Just the blanket you need for tender backs. Each ..... \$3.50

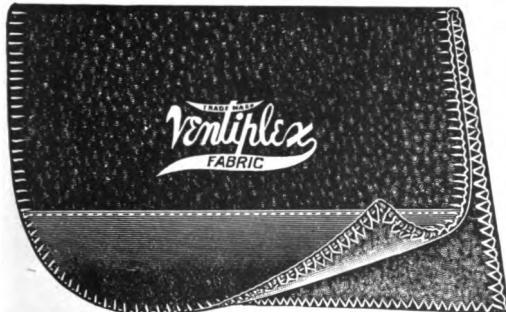

Postage, 35 cents.

### NUMBER 81

Poros woven saddle pad, very similar to No. 71, but made of slightly cheaper materials. Same free circulation of air and a fine article for the price. Each ..... \$2.50

Postage, 35 cents.

## Ventiplex—Heavy Single Porous Felt

### NUMBER 51

Ventiplex, fine wearing and good for the horse's back. Heavily reinforced with 18-ounce duck on sides to prevent latigos wearing. Each ..... \$2.75

Postage, 25 cents.

## Deer Hair Filled Saddle Pads

### NUMBER 41

You know the advantages of pure deer hair collar pads—deer hair saddle pads work the same magic. Made to fit round skirt saddles; brown ticking top and blue and white striped bottom; stuffed with pure deer hair and quilted. A sure cure for sore backs. Each .... \$2.25

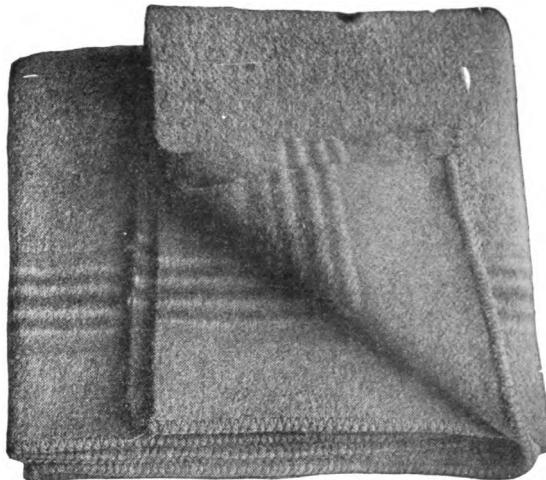

Postage, 20 cents.

### NUMBER 61

Made the same as Number 41, but to fit square skirt saddles. Stuffed with pure deer hair and quilted. These pads are very light weight, but quite thick and cooling to the horse's back. Each ..... \$2.75

Postage, 20 cents.

## Handy Andy

"HANDY ANDY"

NUMBER 200

Big combination bed and saddle blanket. Dark gray mixed, double, Weight  $4\frac{1}{4}$  lbs. Size 54x73 inches when doubled. Just the thing for "roughing it," and the price is only

\$3.50

Delivered to you

## Large Folded Wool Saddle Blankets

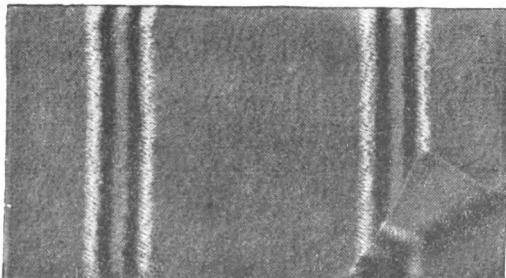

### NUMBER 11

Blue, striped ends, 28x81 inches, three fold. Each ..... \$3.50  
Postage, 20 cents.

### NUMBER 21

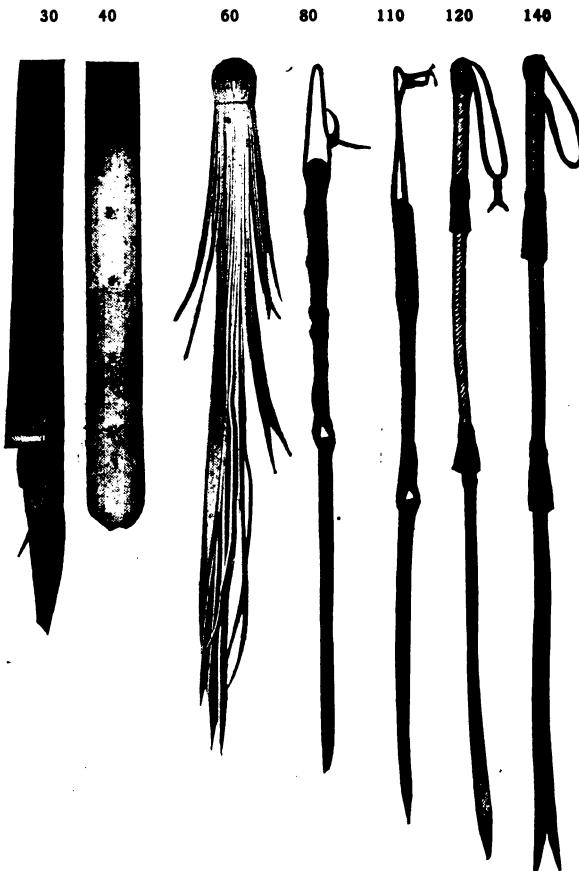

Blue, very heavy, 28x81 inches.  
Each ..... \$5.50  
Postage, 20 cents.

### NUMBER 31

Blue, all wool, heavy and will not wrinkle—next thing to Navajo, 28x81 inches. Each ..... \$7.00  
Brown, slightly finer quality than blue ..... \$7.75  
Postage, 20 cents.

Plain blued, spade mouth, no silver ..... \$6

For plain malleable bottom bar, add 50 cents.

## Genuine "Kelly" Bits

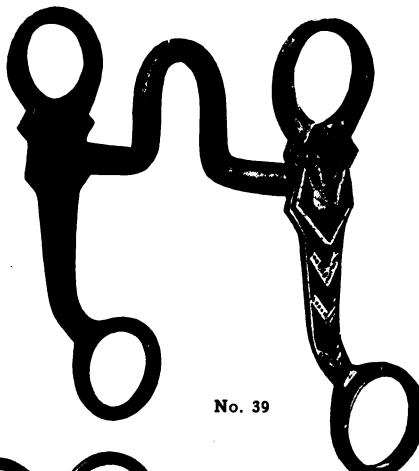

FOR SEVERAL years we have been receiving inquiries from different customers regarding Kelly bits and Kelly spurs. These customers have explained to us that goods of this make are made right; the spurs will fit your heels, and the bits are just of the right weight and hang properly in the horse's mouth. Besides having these qualities, these customers have explained to us that the goods are extra strong, and that the prices are extremely low considering the high quality and real merits of the goods.

We have just taken the words of our customers for it and are showing in this new catalog nearly a complete line of Kelly goods. Kelly Brothers tell us that every article of their make is absolutely guaranteed, and that they will repair or make good any bit or spur bearing their trade mark, if it does not stand the strain, or if it should prove defective, providing the broken article is returned to them.

Kelly Brothers are using a special imported steel, the best to be found on the market, and are turning out the very highest grade of bits and spurs.

The goods, of course, are all hand-forged, and finished by expert workmen.

Special designs and shapes in Kelly bits and spurs will not be made. They make only the designs shown, as these styles have proven through years of experience to be proper, both in design and weight and any change is an experiment.

No. 39

No. 39 Bit, Style 1, Mounted  
as shown, each.....\$8.50

No. 39 Bit, Style 2, Plain,  
Each .....\$6.75

## Four New Style Spurs Which Just Hit the Spot

*All Hand Forged—Finely Finished—Priced Right*

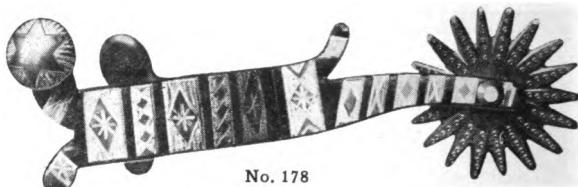

These spurs are strictly hand made from the finest steel that money can buy. It is stiff enough to stand a severe blow, yet tough enough that it will bend without breaking. The silver is extra heavy and absolutely pure.

Rowels are made from a high grade or extra tough steel from five to eighteen points in even numbers, also thirty-two points; Sunburst, Sawtooth or Webb.

The "postage" charge on any article includes insurance and goods are not only insured against LOSS, but also against DAMAGE. They are guaranteed to reach you in first-class shape.

# “Silk Giant” — “Plymouth” — “Bronco Bob”

Clean, silky ropes with wondrous strength. Throw true and hold what they catch.

Single fibres as long as eight and ten feet have been found in these ropes. This accounts for the great strength of the ropes and the extremely smooth silky surface, which prevents any of the fibre ends piercing the hands.

During the years we have been in business we have made an honest and constant effort to supply our customers, at all times, with the very best the markets afford in every line we carry. One of the best things we have done, on a small item, is the furnishing of our customers with

#### THESE SUPERIOR BRANDS OF ROPE

Hundreds of new customers on these ropes are added to the list every year and the men who are not using them have something yet to learn.

When compared in price per foot with other rope they do not seem cheap; but when one compares their service with the service of other rope they prove to be the cheapest ropes made. The pleasure of using a smooth giant of a rope is worth something, too.

Order a sample cut; you will boost to your friends just as strongly as we boost to you.

“Silk Giant” and “Plymouth” are made in  $\frac{3}{8}$ -inch, 13/32-inch, full 7/16-inch and  $\frac{1}{2}$ -inch diameter. “Bronco Bob” is stocked in 7/16-inch and  $\frac{3}{8}$ -inch only. The 7/16-inch size is the most popular for all around work. The  $\frac{3}{8}$ -inch and 13/32-inch are good for light saddle work and the  $\frac{1}{2}$ -inch for extra heavy work.

All of the above sold in cut pieces of any length or made up with any style honda.

#### Charges for fitting hondas on ropes (including honda):

Include 25c for each forty feet or fraction, to cover postage and insurance. Special prices on 1200-foot coils.

# Genuine Mexican Maguey

For  
*Trick Ropers*

For fancy catch work there is nothing so fast and snappy and so accurate to throw as a good, clean, smoothly made, Mexican Maguey.

Maguey Rope is a product of Old Mexico, made from a native grass of that country. The rope is unlike Manila or Cotton rope in that it will not become soft and raggy from use. For this reason it is used by all fancy ropers, in contests and in exhibitions, for doing fancy roping stunts. Being of a firm nature the rope will hold a loop better than ordinary lariat rope and throws very accurately.

Maguey Rope does not make a good spinning rope. If you want rope for that purpose order No. 12 Samson Spot Cord, regular finish. If you want the highest class of Lariat Rope, order Silk Giant. If you live in a damp climate and have trouble with twisted ropes kinking and being continually stiff and unworkable for lariat purposes, order Number 12 Waterproof Samson Spot Cord, or Number 12 Samson Black Waterproof Linen Rope. The Spot Cord and the Linen are not heavy ropes, however, and will not stand heavy work.

Maguey Rope makes a good lariat for very light work; most of these ropes are not more than  $\frac{3}{8}$ -inch diameter, however, and we do not recommend them for any heavy work.

Regular selection, 35 to 40 feet; each.....	\$1.75
Specially selected, 40 to 50 feet; each.....	\$2.00
By the dozen .....	\$20.00

Include 25c for postage on each rope ordered

## For Rope Spinners

It is a conceded fact among all fancy ropers that genuine "Spot Cord" has no equal for spinning. It is smooth, will not kink, and has weight enough to carry up.

The ordinary way of making a spinning rope is first make a small loop at the end by doubling the rope back upon itself and fastening by wrapping with a small size copper wire; then take another piece of copper wire and smoothly wrap the extreme end of the loop, which will prevent the rope wearing itself at that point and at the same time will give weight to the loop. Now pass the other end of the rope through this wire wrapped loop and the spinning rope is ready for business. The No. 12 rope is the right size. Our charge for putting this loop on ropes is 75c.

A No. 409 Aluminum Honda is also fine and is smoother than the wire wrapped loop. Aluminum Honda attached to cotton rope for 75c.

This same rope comes in WATERPROOF finish also and this finish seems to give the rope extra strength, so if you intend to use the rope for light catch work we would advise ordering "WATERPROOF" Number 12.

Samples of all three kinds sent upon receipt of 10c in stamps.

### PRICES:

No. 12 size, regular finish Spot Cord, per foot.....	6c
No. 12 size, waterproof finish Spot Cord, per foot.....	7c
No. 10 size, regular finish Spot Cord, per foot.....	4½c

No. 10 size, waterproof finish Spot Cord, per foot..... 5½c

Postage extra on all sizes.

Also have both the No. 10 size and the No. 12 size in plain white cotton braided rope, also good for spinning, etc., but not as high grade as the "Spot Cord." These ropes make fine lines for four, six and eight-horse teams. Also fine for jerk lines.

NOTE—No. 12 rope measures  $\frac{3}{8}$  of an inch in diameter. No. 10 rope measures  $\frac{5}{16}$  of an inch in diameter.

## "Hogue's Handy Honda" *A Perfect Loop Protector*

**HOGUE'S HANDY HONDA**  
Attached to piece of  
Silk Giant Lariat

**HOGUE'S HANDY HONDA**  
Attached to Honda Loop

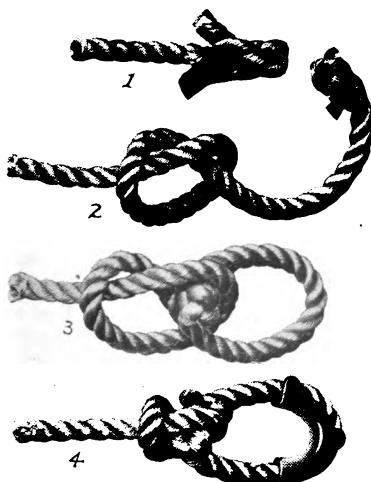

"Gol Darn" are about the words when a fellow cuts out the loop on his rope. You don't need to "swear" any more. Just be sure your rope is fitted with one of Hogue's Handy Hondas and the rope will not break at the loop. Have an extra in your pocket if it breaks some place else and with the instructions given below, if you do not already know how to tie the loop, the thing is fixed up in a hurry.

This honda is light weight, just a fraction more than one ounce, and is attached by simply slipping over the end of the honda loop and closing down the three prongs which project on each side. The prongs can be closed down with a couple of rocks if you haven't a hammer handy. No need to plait the rope back of the loop, as is necessary with other style hondas.

### PRICES:

Hogue's Handy Honda, postpaid, each .....	25c
Hogue's Handy Honda, attached to twisted ropes, Silk Giant, etc.....	50c
Hogue's Handy Honda, attached to braided ropes, Spot Cord, etc.....	75c

(Prices, "attached to ropes," include honda.)

### DO YOU KNOW HOW TO TIE A HONDA LOOP? HERE'S HOW

**FIRST**—Make a square knot in the end of your rope; most any kind will do, but the one shown in Figure 1 is the best, as the loose ends of the strands project back and can be clipped off, which was done before this picture was taken.

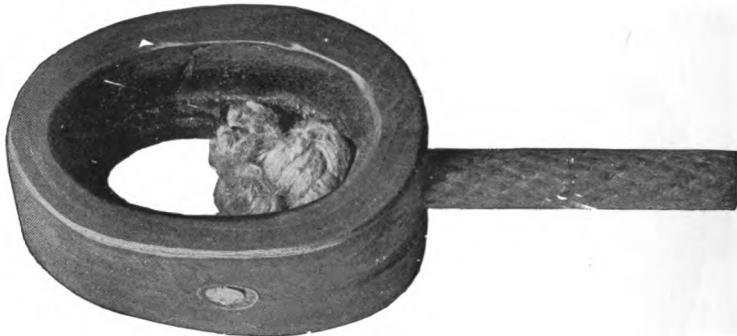

**SECOND**—Tie the first half of a square knot, just an ordinary loop, leaving about 6½ or 7 inches of rope projecting beyond the loop.

**THIRD**—Double the knotted end of the rope back, placing the knot between the outer edge of the loop and the short rope which comes through the loop.

**FOURTH**—Take up the slack with the main rope and your Honda Loop is made. (The best way to take up the slack of the knot in a hard rope is to place a good strong stick through the Honda Loop, place one foot on each end of it, stand in a stooping position, pass the main rope over your back just above the hips—rope tight—and try to stand up. If help is handy let the other fellow pound the knot down while you pull.)

**FIFTH**—Cover the end of the loop with a "Hogue's Handy Honda" and you're ready for business.

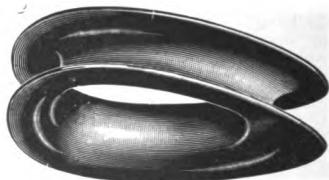

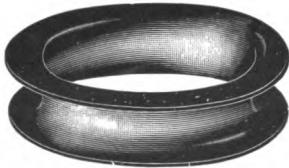

## “Samson” Rawhide Honda

Samson Rawhide Honda; each.....**65c**  
Postage 3 cents

Samson Rawhide Honda is attached to Manila or cotton ropes for **75c**

## Brass Hondas

**NUMBER 409—Brass Honda**  
Each ..... **20c**  
Postage 3 cents

**NUMBER 409X—Aluminum Honda.** Same shape as No. 409. For Spinning ropes; each....**25c**

## Hand Made Rawhide Rope

Any length, per foot.....**32c**

Rawhide ropes are often damaged by being dragged over sharp rocks, being stepped on by your horse, and being drawn over barbed wire fences. Things of this kind often happen unknown or not noticed by the rider and the next time a throw is made the rope breaks. The blame is then put on the rope. For this reason we do not guarantee rawhide ropes against breakage.

Our ropes are made by the best rope maker in the West. The material is all taken from selected hides and all strands braided at the same tension entirely by hand. We know there are no better rawhide ropes than the ones we handle.

# Famous "Diamond Edge" Punch Knives

These knives are absolutely guaranteed and any knife which shows flaws or imperfections will be cheerfully replaced. The blades are made of the famous Thomas Firth & Sons famous English Pocket Cutlery Steel. The knives are all brass lined.

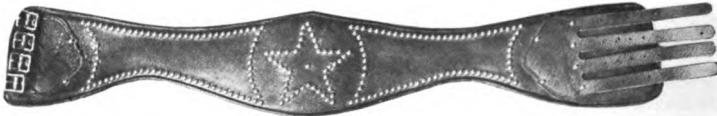

In whetting a pocket knife, use a good oil stone, holding the blade at about 20 degrees, and draw toward you from heel to point. Oil the joints occasionally, as they are liable to wear rough and the blade points protrude.

No. 12S1P	A heavy knife for heavy work; cutting edge of large blade $2\frac{1}{2}$ inches, flesh blade, $2\frac{1}{4}$ inches; length over all, closed, $3\frac{3}{4}$ inches. Each, postpaid.....	\$2.25
No. 22S1P	Medium weight; cutting edge of long blade $2\frac{5}{8}$ inches; short blade, 2 inches; length over all, closed, $3\frac{3}{8}$ inches. Each, postpaid...	\$2.25
No. 32S1P	Light weight; very neat; cutting edge of long blade, $2\frac{3}{4}$ inches; flesh blade, $1\frac{1}{8}$ inches; length over all, closed, $3\frac{3}{8}$ inches. Each, postpaid .....	\$1.75
No. 43SOP	Medium weight; cutting edge of long blade, $2\frac{3}{4}$ inches; flesh blade, $1\frac{1}{8}$ inches; sheep foot blade, $1\frac{1}{4}$ inches. Length over all, closed, $3\frac{3}{8}$ inches. Each, postpaid .....	\$2.25
No. 53S1P	Medium weight; cutting edge of long blade, $2\frac{1}{2}$ inches; flesh blade, $1\frac{1}{8}$ inches; pen blade $1\frac{3}{4}$ inches; length over all, closed, 4 inches. Each, postpaid .....	\$2.50
No. 25	Medium heavy handle, $3\frac{3}{4}$ inches long; cutting edge of large blade, $2\frac{1}{2}$ inches; flesh blade, $2\frac{1}{4}$ inches; punch blade, $1\frac{3}{4}$ inches. Price, each, postpaid.....	\$2.25

Medium heavy handle,  $3\frac{3}{4}$  inches long; cutting edge of large blade,  $2\frac{1}{2}$  inches; flesh blade,  $2\frac{1}{4}$  inches; punch blade,  $1\frac{3}{4}$  inches. Price, each, postpaid.....

## Soft Leather Belts—Abdominal Supports *For Riding, Driving and Motorcyclists*

These belts are made of soft leather, in a good grade. Colors: Tan, brown, pearl and black. They can be had all of one color or a combination of any two colors. Belts are bound all around the edge with leather and full lined with brown canvas. The ornaments are solid star silver and the buckles are nickel plated. A wide belt is almost indispensable to the rider, driver and cyclist. The support to the abdomen is necessary to health.

No. 55—5 inches wide at center, 5 inches wide at ends. Each.....\$6.00  
No. 55X—Same as No. 55, without star silver spots. Each.....\$5.00

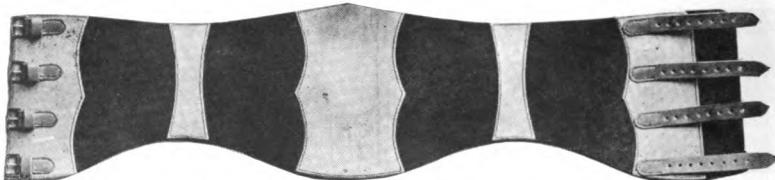

No. 60—6 inches wide at center, 6 inches wide at ends. Each.....\$6.50  
No. 60X—Same as No. 60, without star silver spots. Each.....\$5.50

No. 65—8½ inches wide at center, 7¾ inches wide at ends. Each.....\$7.00  
No. 65X—Same as No. 65, without star silver spots. Each.....\$6.00

POSTAGE ON ANY OF THE ABOVE STYLES, 20 CENTS EACH.

NOTE—Be sure to include postage, give waist measure and specify color, when ordering any of the above belts.

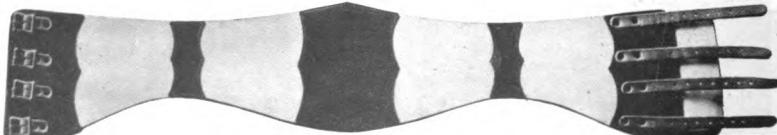

No. 40—Made entirely of soft chap leather. Colors: Pearl, black or brown or a combination of any two of these. The five vertical stays prevent wrinkling. No lining on this belt. Width, 8½-inch in center, 8-inch in front.

Each (buckles and billets attached with double head rivets).....\$5.00

Each (sewed buckle and billet pieces).....\$5.50

Postage, 20 cents each. Additional 10 cents for each inch over 34-inch waist measure Deduct 40 cents for each inch for Number 40 belts narrower than specified above.

No. 45—A soft leather belt with five stays as shown. Six inches wide and shaped to fit you. Billets and buckle pieces attached with double head rivets. Made of soft chap leather; brown, pearl or black, (specify the two colors you wish).

Each .....\$4.00

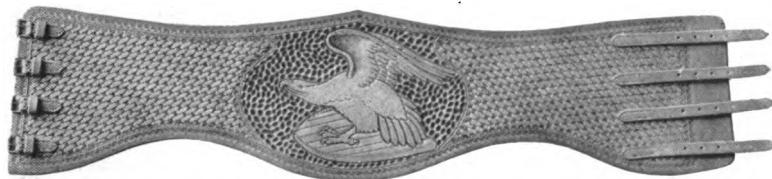

Add 10 cents for each inch over 34-inch waist measure. Postage 20 cents.

## Stamped Riding Belts

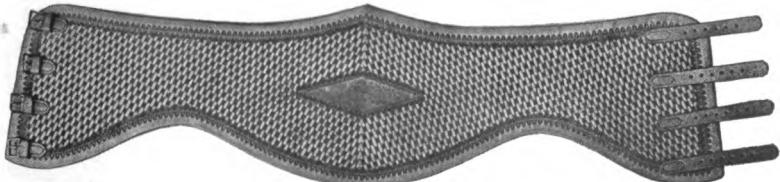

These belts are made of a good grade of medium weight saddle leather in natural, or tan color. If you want dark brown or cordovan color just add 50 cents to the price. The constant jar on one's back and internal organs when riding, driving and motor-cycling, makes some sort of wide belt necessary. These are good ones.

**No. 41—Creased Border Belt.** 6-inch wide, 28-inch to 34-inch waist measure. Each.....\$3.00  
Full basket or check stamp. Each.....\$3.75  
Add 10c per inch for lengths longer than 34-inch. Sewed billets and buckle pieces 50c extra.  
Include 20c for Postage.

**No. 42—Full hand basket stamped ends and hand stamped eagle in center.** 8½-inch wide, 28-inch to 34-inch waist measure.  
Each (billets and buckle pieces attached with double head rivets).....\$8.50  
Each (billets and buckle pieces sewed).....\$9.00  
Add 15c for each inch of length over 34-inch. Postage 25c.

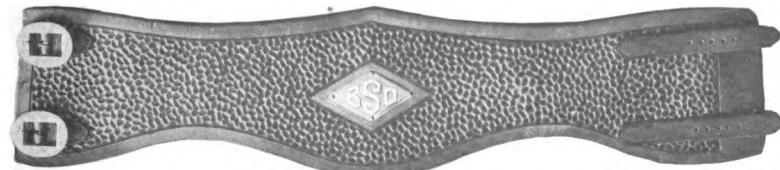

**NUMBER 43—Wide Riding Belt, Shaped or Straight  
Buckle Pieces and Straps Attached with Double Head Rivets**

Plain or creased border like No. 41 ....\$4.00 Check Stamp .....\$3.50  
Hand Flower Stamped .....\$8.50

Initials in center. Postage, 25c. For sewed buckles and straps add 50 cents to prices.

Regular width of belt is 8½ inches at center of back and 8 inches in front. For narrower widths deduct 35 cents per inch. For waist measures over 34 inches, add 15 cents per inch.

**NUMBER 46—Wide Riding Belt.** Hand bowed stamping. Same width as No. 43 above.  
For narrower widths deduct 35 cents per inch. For waist measures longer than 34 inches add 15 cents per inch. Be sure to give waist measure with your order.

Price, with silver buckles and silver name plate in center.....\$12.50  
**NUMBER 46X—Same as No. 46, but with nickel buckles and silver-plated name plate....\$ 7.50**

## Real Leather Cuffs—For Particular Folks

Real Chrome Tan Veal stock in both tops and vamps. Tops stiffened front and back to prevent wrinkling, wide stirrup tongue and high spur counters, narrow toe last, 10-iron oak soles, sewed, 1 3/4-inch heel. E widths in stock. Sizes 5 to 10 (also half sizes).

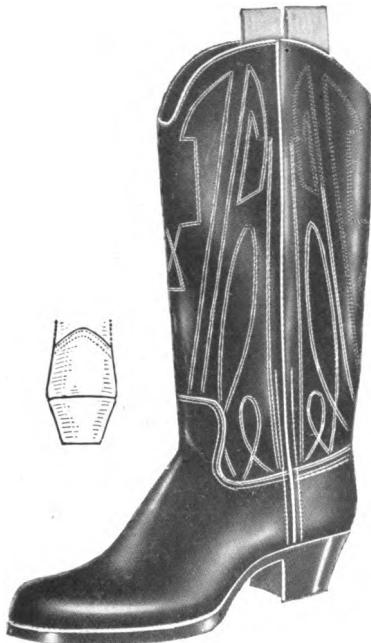

Pair ..... \$12.50

Postage on each pair, 30 cents

Number 135

These boots are not made-to-measure. They are in stock (practically all sizes all the time) and ready to ship the day your order arrives. They are made in dozen lots, not single pairs; this results in a saving in the cost of manufacture and is the reason the prices are not from \$3 to \$6 or \$8 higher.

**LADIES**—If you want a regular man-style boot, in your size, just order a pair of Number 155. They're nifty looking, narrow toes, proper heel, etc., and if not satisfactory in every way you may return them. Made up and ready to ship when your order comes in. And notice the price.

Number 145

**NUMBER 145**  
*Tan Elk Boot*

## Puttees

El Captain  
Style 15A

Styles 10A & 12A

Style 11B

Nearly every man who has worn puttees for any length of time has had them in qualities which were good, bad and indifferent. There are thousands of pairs of puttees on the market which look real good to the man who does not know, but after a few days' wear lots of them turn out to be made of flimsy split leather with a coating of enamel or other finish on the outside. This soon wears off and the owner discovers that he has been stung.

Every puttee on this page is made of real, honest leather, and if you want good stuff which, of course, is always the best in the long run, just send in your order.

### EL CAPTAIN—Style 15A

A real horsehide puttee, quality throughout, not only in materials but in workmanship as well. Made for men who are particular; will take high polish, and give exceptional wear. This puttee is given a prominent place on this page because of the excellent showing it has made with our customers during the last two or three years. The price is very little more than some people are charging for puttees made of flimsy split leather.

Pair ..... \$7.75

When ordering be sure to give calf measure. (Measure around leg at largest place just below knee.)

### NUMBER 10A

This is a sturdy first-grade leather legging. The material is selected dark brown bridle leather, made first-class throughout, and will give satisfactory and lasting service under the most severe conditions. It is really made for the man who has honest-to-goodness work to do, and needs a pair of puttees to help him do it.

Per pair ..... \$7.00

### NUMBER 12A

This is the same style strap puttee as No. 10A. The grade of the material is not quite so high, but it will give exceptional service under average conditions.

Pair ..... \$5.00

### NUMBER 11B

This puttee is made of a right good grade of bridle leather in a dark brown or cordovan color. It is the spring front style, no straps around the leg.

Per pair ..... \$6.00

When ordering be sure to give calf measure. (Measure around leg at largest place just below knee.)

## Stetson Hats

Our hats are all shipped in strong corrugated boxes, and each one is insured not only against loss, but to arrive in first-class condition. When goods of any kind reach you in a damaged condition, please report promptly.

The charge for this service and postage on hats is 25 cents each when full remittance accompanies the order, and 35 cents if the package is sent with a balance to be collected C. O. D. Remit at least \$3.00 with your order.

Remember to give size and color with your order.

At times the deliveries of hats from the factory are slow and shipments are delayed; this causes some sizes and colors to be temporarily "out of stock." When possible please give second choice so that if the hat you order is "out" we can ship some other style or color.

Number 300-W—"TEXAN"

wide. Color, B belly, (gray).  
Each ..... \$12.50

## Other Popular Makes

**NUMBER 600SC**

A new, nifty shape for the well  
dressed, red-blooded westerner. This  
hat is not a Stetson, but it is the  
highest grade made by another firm,  
and the shape is a new one. Crown 7½  
inches high, brim 4½ inches wide.  
Color, B belly (gray). Brim slightly  
curled at sides, with binding and wide  
crown band, very similar to Number  
600S Stetson.

Each ..... \$9.50

**NUMBER 50PC**

This hat is not a Stetson, but is an exce-  
ptional buy at the price. At a figure like this  
one can afford to wear a hat until it becomes  
soiled and then throw it away. The style is  
correct. The brim rolls on the edge and droops  
in back and front. It is a regular Carlsbad  
style. Dimensions, crown 7 inches high, brim  
4 inches wide. Color, B Belly (gray).

Price ..... \$5.00

**"San An"**

**NUMBER 40C—Not a Stetson**

A smooth finish, light color hat of excep-  
tional quality at the price. Popular San An  
shape, crown 6½ inches, brim 4 inches. Hat  
is well proportioned and conservative in di-  
mensions—snappy and of good appearance.  
Price ..... \$5.00

No War Tax. Postage, 25 cents.

## "Aetna," the Insured Hat

NUMBER 2300

This is the hat which took our trade by storm a couple of years ago; because of conditions at that time, however, we secured only one lot and did not restock. It is, we believe, the finest hat on the market at within three dollars of the price. Dozens of our customers have ordered from seeing hats their friends bought, but we have not been able to fill the orders until now. Each hat is accompanied by an insurance policy. This insurance policy guarantees absolute satisfaction to the purchaser. If the hat proves defective either in material or workmanship, all you need do is sign and return the insurance policy, and get a new hat absolutely without cost.

THE PRICE IS ONLY \$9.00

delivered to you; safe delivery guaranteed. Be sure to give size with your order. Dimensions, crown 7 inches high, brim 4 inches wide. Color very light creamy tan. Finish, fuzzy Beaver.

No War Tax

## Thrifty

NUMBER 50C—"THRIFTY"

This is not a Stetson, but the price of one Stetson will buy three of these. The quality is a lot higher than the price would indicate. The finish is genuine Velour, or fuzzy Beaver, and the hat in every way looks as though it would cost twice as much as the price quoted. Dimensions, crown 7 inches high, brim 4 inches wide. Colors, black, brown, silver.

Each ..... \$6.75

BE SURE TO STATE SIZE AND COLOR  
WITH YOUR ORDER

Our hats are all shipped in strong corrugated boxes, and each one is insured not only against loss, but to arrive in first-class condition. When goods of any kind reach you in a damaged condition, please report promptly.

The charge for this service and postage on hats is 25 cents each when full remittance accompanies the order, and 35 cents if the package is sent with a balance to be collected C. O. D. Remit at least \$3.00 with your order.

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
Catalog No. 22

THE GOODS LISTED ON THIS PAGE ARE DELIVERED TO YOU, INSURED, BY  
MAIL, AT PRICES QUOTED.

Please note that these "mounted" hat bands and fobs are mounted with "sterling silver." Some firms quote "mounted" bands and fobs at lower prices than quoted here. These lower priced goods are mounted with "German" silver and nickel. The sterling silver mountings are worth more than the difference in price.

As Fine on the Inside as on the Out

**Number 22**—Fancy Mixed Colors, Pure Silk Knit Scarf or Sash. Long silk fringe on ends 6 inches wide. Each, postpaid ..... \$3.50

## Trouble for the Range Cook

By E. A. BRININSTOOL

Come, wrangle yer bronco an' saddle him, quick'.  
The cook is in trouble down there by the creek!  
Oh, cinch up yer latigoes, all o' you runts,  
An' pull 'em so tight that yer ol' bronco grunts!  
'Twill need all you punchers the foreman kin send,  
'Cuz the chuckwagon's mired down there at the bend!

The cattle are scatterin' over the plain,  
While punchers are yellin' in language profane!  
But let 'em jest go—for the cook's is a muss,  
An' quicksands are causin' the feller to cuss!  
Oh, this is the time ev'ry puncher's his friend,  
'Cuz the chuckwagon's mired down there by the bend!

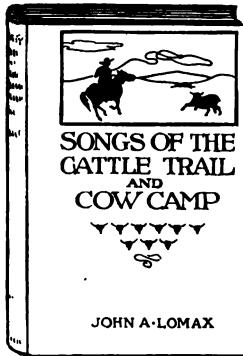

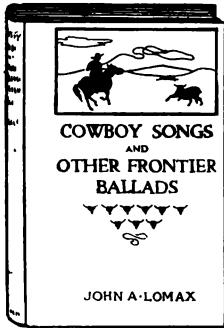

Come on with yer ropes that are heavy an' stout!  
No grub fer the bunch till the wagon's pulled out!  
It's in to the hubs, an' a-sinkin' down slow,  
An' cookie is cussin' an' watchin' it go!  
Come! hustle, you punchers, an' haul him to land,  
Before he is flooded by water an' sand!

A-strainin' of ropes an' a-gruntin' of nags,  
An' woe to the puncher whose lariat sags!  
It's spur 'em an' quirt 'em, an' make 'em lay to!  
An'—now she is movin'! An'—hooray! she is through!  
It's worth all the time that the effort required,  
'Cuz it's nothin' to eat when the chuckwagon's mired!

(From "Trail Dust of a Maverick," by E. A. BRININSTOOL)

See Page 132

For people who like books — real red-blooded western books — the four on this page have a special appeal. Shipments made promptly upon receipt of order.

### *Cowboy Songs and Other Frontier Ballads*

Lomax' book contains songs and poems with a kick. "Hell in Texas," "When the Work is Done This Fall" and dozens of other poems and songs of the range and camp. Just the book to chum with during the long winter evenings and to amuse you and your friends on the trail. About 200 pages. Some of the songs are set to music.

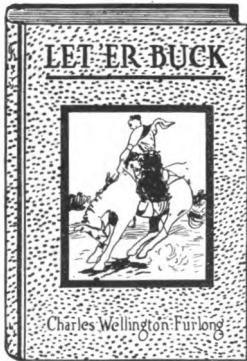

Price \$2.25 (Postpaid)

### *Songs of the Cattle Trail and Cow Camp*

This is another popular Lomax book. Contains nearly 200 pages of the old-time songs and poems of the passing West. "Out Where the West Begins," "The Dance at Silver Valley," "Riders of the Star," "Jack Dempsey's Grave," "A Cowboy's Love Song," "Love Lyrics of a Cowboy," "The Bunk-House Orchestra," "Bar-Z on a Sunday Night."

The above are just a few of the good ones in this collection. Book contains the above titles and nearly 70 others.

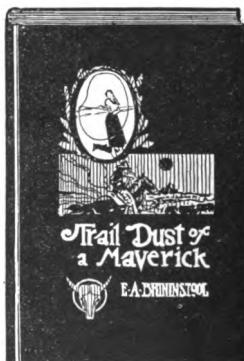

Price \$1.75 (Postpaid)

### *Let 'er Buck*

Furlong's Great Book of the West. Remarkably illustrated from photographs of bucking horses, cow-pony races, roping wild steers, bull-dogging, Texas long-horns, Indians, cowboys and old-time scouts as seen at the famous annual cowboy carnival, the Round-Up, held in Pendleton, Oregon, each September. "Let 'er Buck" will delight every American who loves out-of-door life and real sportsmanship. Contains more than 250 pages.

Price \$2.25 (Postpaid)

### *Trail Dust of a Maverick*

Brininstool's well known volume of cowboy and Western poems. One of the most popular Western books on the market. The book contains more than 220 pages of poems dear to the heart of every rider and lover of the great out-of-doors.

Price \$2.50 (Postpaid)

# Chaps

Please Read This Page Before Ordering Chaps.

Chaps, the same as our Saddles and other goods, are backed by our iron-clad guarantee of "Quality Throughout."

You can order Fur Chaps with the assurance of getting the best on the market, as the hides are all of the first selection. We use no hides with dry, straggly or matty hair.

AS TO COLOR. We can furnish any color tanned, but the only ones we recommend are black and white, although orange and yellow ordinarily give perfect satisfaction. Blue, green, old gold, purple, etc., invariably fade out to a sickly shade.

Our All-Leather Chaps are of the same high quality as the fur ones and are guaranteed in every way. Leather samples sent on request.

## LENGTH OF HAIR ON ANGORA CHAPS

The Angora hides used in our hair chaps are tanned in one of the best tanneries in the country and they make a speciality of tanning hides for chaps. Everyone knows that goats shed at the time of the year when the hair is the longest; for this reason a pair of chaps made from a hide with extra long hair is more apt to shed than a hide with medium length or short hair.

Hair from six to seven inches long can be depended upon as to quality and it is very seldom that this length hair will shed. We do not recommend hair over seven inches in length.

## FOR TAKING MEASUREMENTS

### PLEASE GIVE:

Your height .....feet.....inches.

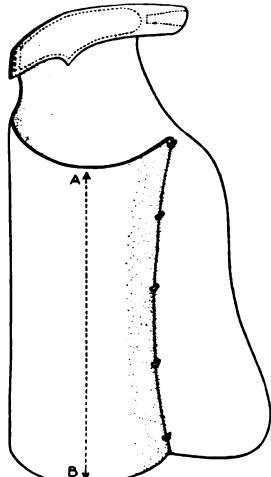

Your weight.....pounds.

Thigh measure: Large part of one leg just below crotch .....inches.

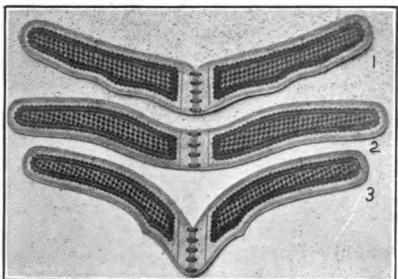

Waist measure.....inches.

Back of Chap Leg, A to B.....inches. The best way to get this is to measure your old chaps.

Do you like long or short-waisted chaps?.....

MEASURING CHART

Here are three good chap belts. You may have one of these shapes on your chaps or any other shape you prefer—send your own belt pattern, if you wish. Other good shapes are shown on the chaps on the following pages.

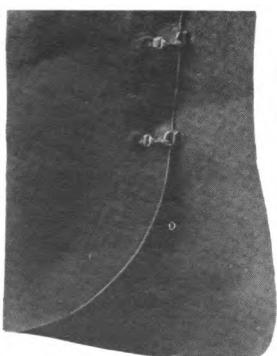

CHAP BELT

## CHAP BELT

Style Number 8

### IT FITS

Snug as a bug in a rug. Notice how these chaps fit in front. The Number 8 belt does it. If you want this belt on your chaps just say so.

CHEYENNE LEG

## CHEYENNE LEG

Cut up to either second or third concha from bottom. Any of the chaps shown in our catalogue will be made with this style leg if you just say you want it.

## Pinto Wing Chaps

**STYLE 200. Pinto Wing Chaps**

Made of the very best Angora it is possible to obtain. Any style belt. Backs to fasten with snaps and rings or to lace. Four spots in each leg. Made with black, white, brown or orange fronts; and with white, black, brown or orange spots. Backs of brown, pearl or black soft chap leather.

If more than four spots are wanted on each leg they will be put on at 25c each.

200A Price—6-inch canvas lined wings, check stamp belt.....	\$32.50
200B Price—6-inch leather lined wings and flowered stamp belt.....	\$34.00
200C Price—7½-inch leather lined wings and flowered stamp belt.....	\$35.00

Add 50c for each inch of leg over 32 inches.

Include 75 cents postage for each pair. If all is not used we return the balance.

There are no holes cut in these fronts as is generally the case with spotted chaps; the spots can be removed if desired.

## Wing Chaps

**STYLE 210. Wing Chaps**

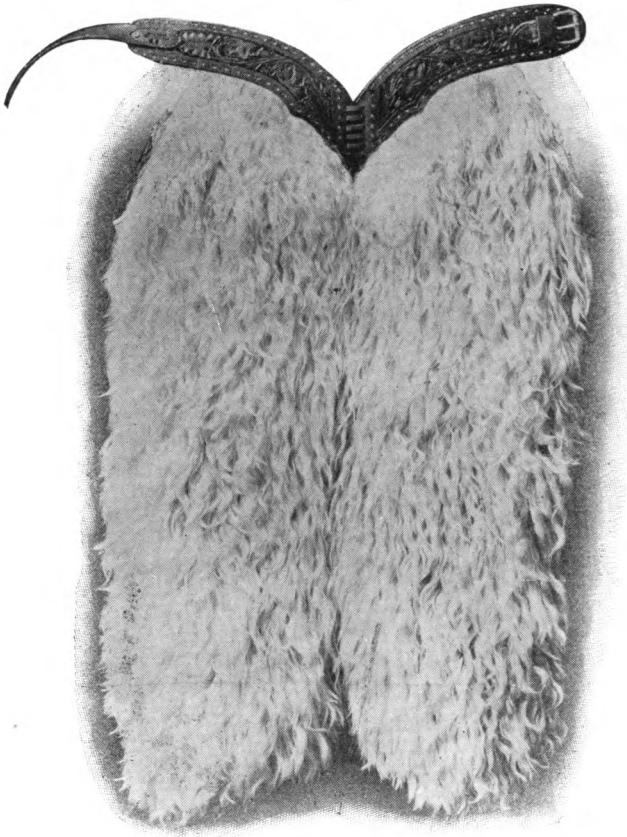

No better Angora skins grown than the ones used in these chaps. Long, medium, or short hair. Backs fastened with snaps and rings or laced. Fronts made of black, white, orange or brown selected Angora fur. Backs brown, pearl or black, soft chap leather. All seams are reinforced. Stirrup rubs on bottoms of legs.

210A—5 to 6-inch canvas lined wing, check stamp belt.....	\$31.00
210B—6-inch leather lined wing, flower stamp belt.....	\$32.50
210C—7-inch leather lined wing, flower stamp belt.....	\$34.00

If legs are to be more than 32 inches long, add 50c for each extra inch over the 32.

Include 75c postage for each pair. If all is not used we return the balance.

## Regular Closed Leg Chaps

### NUMBER 230T

Our regular first grade Angoras. Closed legs. Best selected skins with long, medium or short hair. Black, white, brown or orange Angora fronts. Pearl, brown or black soft chap backs. Deep pockets, stirrup rubs, etc. Buck sewed. Pair.....\$30.00

For legs longer than 32 inches, add 50c for each additional inch over the 32.

### NUMBER 230

Exactly same chap as Number 230T, without the thonging. Pair.....\$28.00

For legs longer than 32 inches, add 50c for each additional inch over the 32.

### NUMBER 240

Exactly the same chap as Number 230, except that belt is check stamp instead of flower stamp. Pair .....\$27.00

### NUMBER 240X

Same quality as No. 240, but made with plain, soft leather belt. Pair .....\$25.00

For legs longer than 32 inches, add 50c for each additional inch over the 32.

Postage, 65 cents pair. We return any unused balance. Initials stamped on belts free.

**HAMLEY & COMPANY**  
**PENDLETON, OREGON, U. S. A.**  
*Catalog No. 22*

## **Extra Quality Chaps**

**WITH FREE, SILKY HAIR**

**NUMBER 270**

Extra selected hides and the best of materials and workmanship throughout, make this chap one of the finest in our line

The legs are reinforced on the sides and laced with heavy latigo leather mounted with heavy nickel conchas. The fringe under the belt and on the legs is soft glove leather. Backs made of black, brown or pearl chap leather and fringe to match.

Flower Stamp Belt, Per Pair ..... \$34.00  
Check Stamp Belt, Per Pair ..... \$32.50

Send 75 cents postage for each pair. We return any amount not used.

Add 50 cents for each inch of leg over 32 inches.

## Pinto Chaps

**STYLE 220. Pinto Chaps**

Closed legs. Very highest grade Angora fronts, long, medium or short hair. Made with black body and white spots as shown or with white body and black spots. Any style belt, with conchas as shown or with flower stamping and no conchas. Deep pockets. Price.....\$31.50

If taken two pairs at a time—one with white body and black spots and one with black body and white spots, price is \$30.00 per pair.

Postage, 65 cents per pair. Add 50 cents for each inch of leg over 32 inches.

**HAMLEY & COMPANY**  
**PENNDLETON, OREGON, U. S. A.**  
*Catalog No. 22*

## Chaps

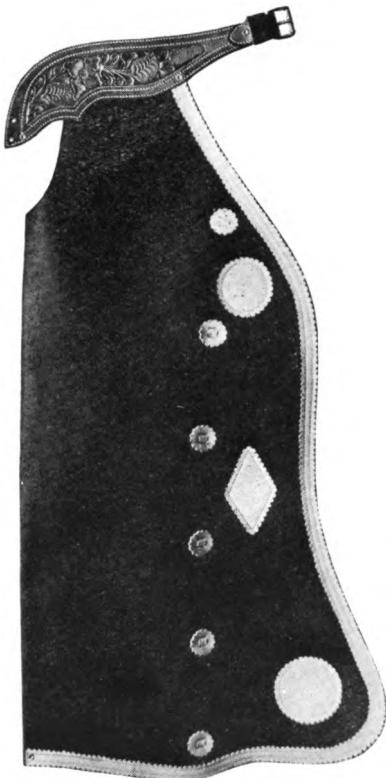

### STYLE 250 Chaps

Selected Angora fur fronts with spotted, brown, black or pearl leather tops. Your initials in spots if desired. Hair three to eight inches long. Pearl, black or brown horsehide backs. Wide turn-up binding on bottom with stirrup rubs. Double stitched belt. These chaps made up first class from top to bottom. Pair, black or white.....\$30.00

Add 50 cents per inch for each inch of leg over 32 inches

Postage, 65 cents pair. We return any amount not used

## Chaps

NUMBER 620

### NUMBER 620

Here's a fine all leather chap, no nickel or silver mountings of any kind, made with full flower stamped belt, either shaped as pictured or as shown on any other chap in the catalog. The body of the chaps is brown, black or pearl, with contrasting trimmings. Snap and ring or laced backs. The wing is  $6\frac{1}{2}$  inches at concha next to top, and 11 inches at bottom,

Price ..... \$27.00

NUMBER 340, ANGORA CHAPS

Angora chap, black or white hair four to six inches long. These chaps are not as high grade as the higher priced chaps, but are just the thing for a man who does a limited amount of riding. Furnished with plain belt, straight or drop style, bound bottoms, reinforced seam ends, no pockets. Backs made of brown, pearl or black soft chap leather.

Pair ..... \$19.50

This chap not made with legs longer than 30 inches.

If check stamp belt is wanted add 75 cents. For flower stamp belt, add \$1.50.

Postage, 65 cents pair. Any unused balance will be returned.

NUMBER 340

## Chaps

NUMBER 290

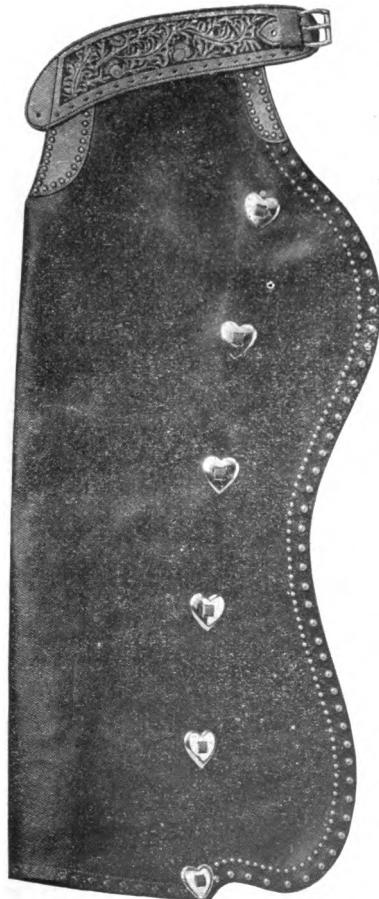

One of the most popular show Chaps on the market. Made of extra select soft chap leather. Usually made with pearl body and black or brown binding; but will be made with black or brown body and pearl binding if desired, or any other two color combination. All edges are thonged by hand with calf skin. Mounted with about eight hundred star silver ornaments and heavy nickel conchas, solid, not plated. Made with skirting leather stamped belt if desired. Wings are 10½ inches wide.

For legs over 32 inches, add \$1.00 for each inch over the 32 inches.

Price, per pair, less pockets.....\$41.00  
With fringed pockets.....\$43.00

NUMBER 290

NUMBER 450

NUMBER 450

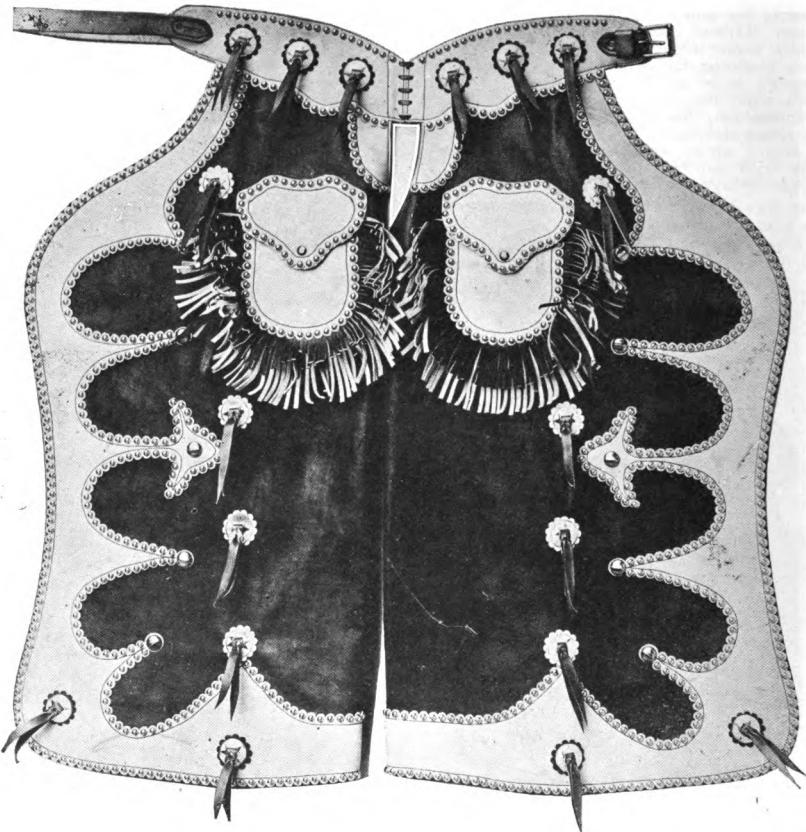

A fine neat chap made for real service. Mounted with German silver spots and solid nickel heart tie ornaments. Fish style belt finely hand flower stamped and thonged and stitched to body of belt. Wings 7 inches at top and 9 inches at bottom. No pockets. Made of first quality black, brown or pearl soft chap leather or oil grain chap leather. Laced backs.

Price .....

For legs over 32 inches, add 50 cents for each inch over 32 inches.

Postage, 65 cents. We return any unused balance.

## Exhibition Chaps

### NUMBER 320

Brown or black horsehide body and pearl border. Wings twelve inches wide. Chaps full mounted with about one thousand star silver spots and star silver conchas. Double fringe under pockets. Any style belt.

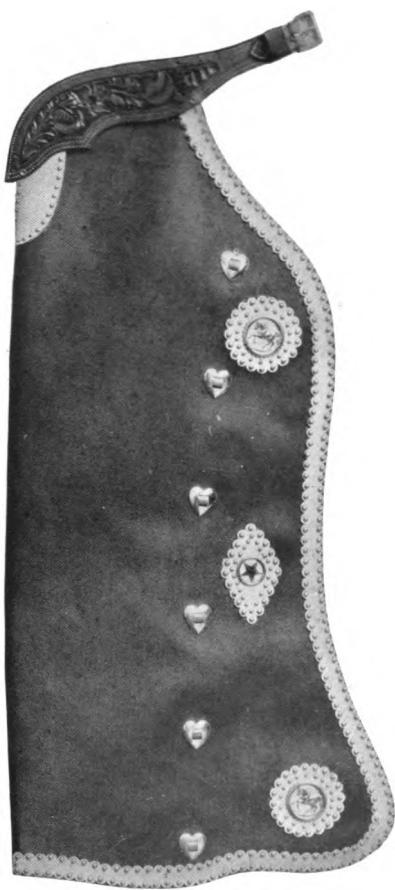

Price ..... \$46.00

Made up light body and dark border if preferred.

Postage, 75 cents. We return any unused amount.

Add \$1.00 for each inch of leg over 32 inches.

## Chaps

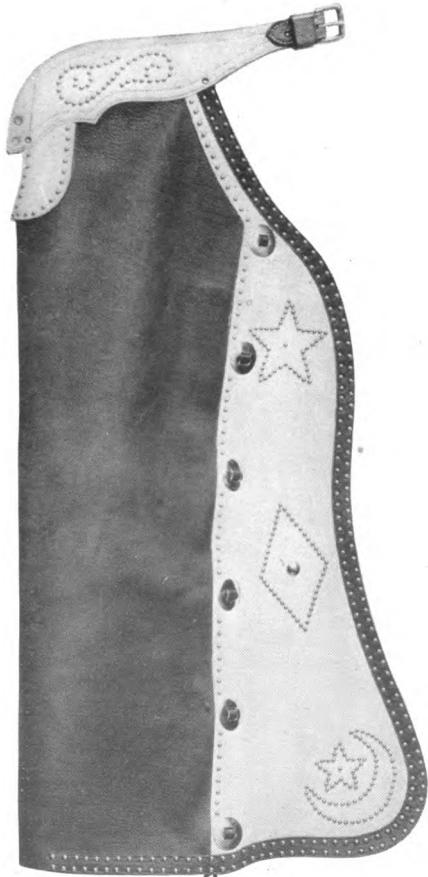

Number 590

### NUMBER 590 CHAP

A dandy, full leather style which would have sold during 1920 for at least \$45. Ornaments are solid star silver. Made of black, pearl or brown, soft chap leather with circles and diamond made of darker or lighter color than body if so ordered. Wing is 10 inches wide at bottom and 6 inches at top concha. Laced or snap and ring backs. Add 75 cents to price for each inch of leg over 32 inches in length.

Price ..... \$31.00

Number 640

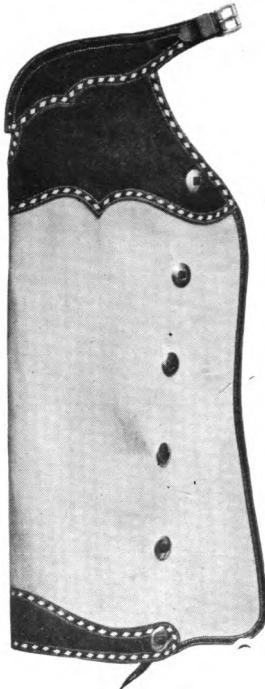

### NUMBER 640 CHAP

This is a new pattern and is a dandy. Leg and wing trimming made of either black, brown or pearl soft chap leather or yellow chrome lace leather; with wing and belt of a color of one of these same leathers in contrast to the leg and wing trim. Wing measures 6½ inches at concha next to top and 11 inches at bottom. All mountings are solid white nickel will not turn brassy. Metal eyelets in belt for lace string. Either snap and ring or laced backs. Be sure to specify colors of leathers wanted when sending order.

Pair ..... \$33.50

For leg measures over 32 inches add 75c for each extra inch.

## Four Dandy New Ones

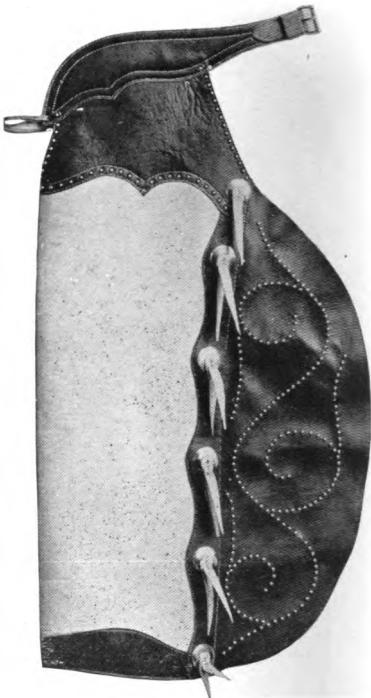

Number 570

### NUMBER 570 CHAP

High grade, all leather. Any two color combination of black, pearl or brown with contrasting thonging. Wings 8 inches wide at bottom and 5 inches at concha next to top. Snap and ring, or laced backs. Add 75c per inch for each inch of leg over 32 inches. Price ..... \$27.00

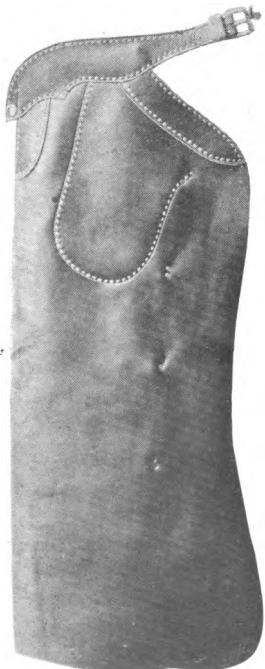

For belt made of stiff leather check stamped, add \$1.00 to price.

Number 650

### NUMBER 650 CHAP

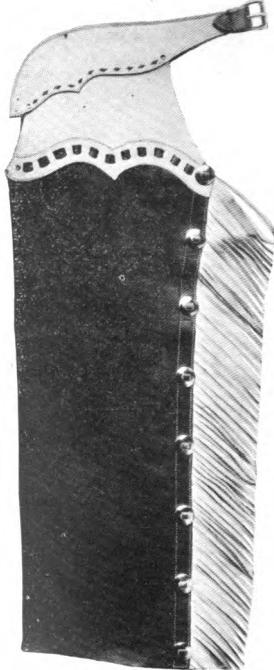

A very popular pattern and a serviceable article. Made of any two color combination of brown, black or pearl, soft chap or with body or wing of Wyoming Oil Grain leather and balance of soft chap. Ornaments are solid star silver and will not wear off brassy. Wing is 10 inches wide in center and full lined. Add 50 cents for each inch of leg over 32 inches. Snap and ring or laced backs. Price ..... \$31.00

Number 600

NUMBER 510

# Ladies' Riding Skirts

*The Finest Line  
on the Market*

#### PLEASE NOTE

Every one is made up fresh and clean after the order is received. No "left-overs" to dispose of.

In ordering skirts give the following measurements:

1. Measurement around waist.
2. Around hips at largest place.
3. Length from top of waist band to bottom of skirt.
4. Crotch measure: Measure from top of waist band in front, between legs, and up to top of waist band in back.

In measuring length, measure from waist line to extreme bottom of skirt. If the exact style you want is not shown we shall be glad to make any changes desired, and make price accordingly.

NUMBER 56  
SKIRT WITH FRONT PANEL  
REMOVED

NUMBER 56

One of our most popular skirt styles. Full six gores, two rows of fringe around bottom and with one row of fringe around top of pockets. Pictures show skirt with panel and with panel removed. In ordering be sure to state whether or not panel is wanted.

This skirt is also made of first grade corduroy.

Prices, without panel—Made of Brown Glove Sheep .....	\$20.00
Made of Brown Horse Hide .....	\$29.50
Made of Smoked Horse Hide .....	\$29.50
Made of drab or Green Corduroy.....	\$14.50

Add for Glove Leather panel, \$4.50; for Horse Hide panel, either Brown or Smoked, \$7.00; for Corduroy panel, \$2.50.

If glove leather fringe is wanted on corduroy skirts, add \$3.75 to price quoted.

For each inch of length over 37 inches add \$1.00 on leather skirts and 25 cents on corduroy skirts.

For hip measure between 39 and 44 inches, add \$1.00; over 44 inches and not more than 48 inches, add \$2.00.

Be sure to give all necessary measurements, as mentioned on page 151.

**NUMBER 66**

Ladies' Riding Skirt. Six gore pattern. Made with or without pockets. Made with buckle at waist band if so ordered.

Made of soft, brown glove sheep leather, very light but strong, or made of horsehide either dark brown or gray specially tanned for shirts.

Price—Glove Leather ..... \$20.00  
Price—Horsehide ..... \$29.00

Same style skirt, made of fine, heavy corduroy, tan, dark gray or dark green. No fringe, - \$13.75

If glove leather fringe is wanted on corduroy skirts, add \$3.75 to price.

For lengths longer than 37 inches, add 25 cents per inch on corduroy skirts and \$1.00 on leather.

For hip measure between 39 and 44 inches, add \$1.00; over 44 inches and not more than 48 inches, add \$2.00.

Be sure to give all necessary measurements, as mentioned on page 151.

Samples of skirt materials sent on receipt of 10 cents in stamps.

Postage on each skirt, 50 cents. We return any amount not used.

**NUMBER 76**

**Six gore** riding skirt mounted with nickel spots and nickel tie ornaments. Made with ornamented waist band as shown or made straight to buckle. Double seams throughout.

Made of soft, brown glove leather or of light weight horsehide, either brown or gray.

Price—Soft brown glove leather ..... \$23.00  
Price—Horsehide ..... \$32.50

For hip measure between 39 and 44 inches, add \$1.00; over 44 inches and not more than 48 inches, add \$2.00.

Be sure to give all necessary measurements, as mentioned on page 151.

**Postage**, 50 cents. We return any unused balance. Samples of above leathers sent upon receipt of 10 cents in stamps to cover postage.

**NUMBER 86**

A skirt of unusually neat appearance. Cut full six gore with pockets on sides. One row of four-inch fringe around bottom with row of wider fringe above, tapered to a height of one-third the length of the skirt on each side. There is nothing flashy about this skirt, but it is extremely neat and is made of the finest of materials.

Price—Made of Brown Glove Sheep .....	\$23.00
Price—Made of Brown Horsehide .....	\$32.50
Price—Made of Smoked Horsehide .....	\$32.50

Postage and insurance, 50 cents.

This skirt, when made in a combination of the brown and smoked horsehide, is a stunner. The brown can be used for the body and the smoked for the fringe, or the smoked for the body and the brown for the fringe. Prices same as for all one color.

For each inch of length over 37 inches add \$1.00 on leather skirts. For hip measure between 39 and 44 inches add \$1.00; over 44 inches and not more than 48 inches add \$2.00, on all materials.

Be sure to send all the necessary measurements as mentioned on page 151.

**NUMBER 96**

A skirt made of the finest materials and with just enough trimming to make it attractive. Solid nickel spots just above the top row of fringe, one at each corner of the pocket flaps, and nickel headed snap buttons on plackets. Three rows of fringe around skirt, one row down each side seam and around pockets.

**Price—Made of Brown Glove Sheep . . . . . \$24.50**  
**Price—Made of Brown Horsehide . . . . . \$36.00**  
**Price—Made of Smoked Horsehide . . . . . \$36.00**

Made, in the horsehide only, with two colors of leather, smoked and brown horsehide, same as described for Number 86, at no extra charge.

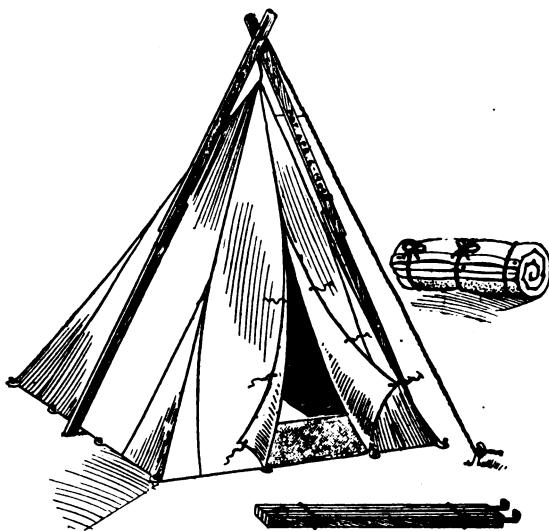

Postage and insurance, 50 cents.

For each inch of length over 37 inches add \$1.00 on leather skirts. For hip measure between 39 and 44 inches add \$1.00; over 44 inches and not more than 48 inches add \$2.00, on all materials.

Be sure to send all measurements as mentioned on page 151.

HAMLEY & COMPANY  
PENDLETON, OREGON, U. S. A.  
*Catalog No. 22*

## Super-Quality Range Tent

6x8 FEET

12-OUNCE TOP •

16-OUNCE FLOOR

EACH

**\$16.00**

Carrying charges extra.

Shipped either by Parcel Post or Express

This tent is made with a tightly sewed bottom, the edges of which, as a precaution against the entrance of water in stormy weather when no ditching is done, are turned up some twelve inches and securely sewed to the walls of the tent. The poles are neat folding shear poles, which stand outside the tent and are prevented from spreading by special patented construction. No paulin required.

## What They Say About Hamley Saddles

St. Maries, Idaho, Sept. 1, 1921.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: I received saddle No. 530 all O. K. and believe me, she's some dandy. Have just got it nicely broke in. I ordered that saddle purposely to take the "kinks" out of a bad one, and believe me when I tell you that I "scratched" him Pendleton style, a "Hamley" is good enough for me.

(Signed) O. W. BLAKE.

the Cascade Mountains around Mt. Jefferson, so I got a pretty good chance to try the saddle. It never knocked a hair off the horse nor did it make me tired in any way, so you can see the saddle must fit. .

I have ridden the range for 27 years and I have owned a great many saddles. I wouldn't trade this one for the whole outfit.

Thanking you very kindly, I am,  
Respectfully yours,  
(Signed) LEROY MOORE.

Grandview, Oregon, Oct. 19, 1921.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: Please pardon me for not writing you sooner about the new saddle. The next day after I got the saddle I started into the mountains with H. I. Corbett and party. We went over 125 miles of the roughest part of

Petaluma, Calif., Nov. 12, 1921.

HAMLEY & Co.,  
Pendleton, Oregon.

GENTLEMEN: I received my saddle O. K. some time ago. I have to say it is a fine rig and a right fit. I sure like a Hamley saddle and wouldn't ride anything else.

(Signed) J. S. BRAZIL.

# What They Say About Hamley Saddles

Hays, Montana, March 7, 1922.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: Saddle received O. K. I might add, it is the most satisfactory filled order a saddle maker ever turned out for me. I have owned probably fifty saddles and I have had several made to order, but this one sure suits me; stirrup leathers hang well ahead, sets a horse good, etc.

The only thing I am short on is the brass ring soft hair cincha to buckle on both sides.

Lots of the boys have tried my saddle and they all join in saying it is a dandy and express a wish to have one of the same kind.

Truly yours,

G. C. BRADLEY,  
Hays, Montana.

Later: Mr. Bradley now has the brass ring cincha.

Sundance, Wyo.,  
March 10, 1922.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: Please send me your No. 22 catalog, if you have it printed.

I am going to buy a saddle of you in the spring, about the first of May. I have a bunch of horses to break, and I want a saddle that has a reputation of "Staying where you put it," like yours has. There are several of your saddles in this country, and I think they are the best made.

I like your Hamley-Bronc tree better than any tree I ever rode.

My address is Moorcroft, Wyoming, but I am working away from home, so send the catalog to me at Sundance, Wyoming, care A. H. Hewes.

How long does it take to make a saddle?

Yours truly,  
GEO. M. SAPP.

Hyattville, Wyo., March 6, 1922.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: The saddle I bought from you proved to be satisfactory in every way. It is the best saddle I ever owned, or ever expect to own. The men of this community like it fine and all wish they had one like it.

Thanking you again for your kindness, I remain,

LLOYD M. RANNELLS.

Lost Springs, Wyo., March 15, 1922.  
HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: I received the saddle in fine condition, and I liked it and was well pleased with it. I knew I would like it or I wouldn't have ordered it, as I have rode a Hamley saddle before and know that they are good ones. It couldn't have pleased me more.

Yours truly,  
R. E. BARNES.

Big Piney, Wyo.,  
December 12, 1921.

HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: I got my Hamley saddle and it's a pippin. It stays where you put it. It's just right for roping and if a fellow can't ride them and let them buck with it, he had better stay off.

I tried it out a few times when I first got it, and have been talking Hamley real strong ever since. Yours truly,  
GARLAND LINN.

Hollywood, California, Feb. 15, 1922.

MR. J. J. HAMLEY,  
Pendleton, Oregon.

DEAR SIR AND FRIEND: You will be surprised to hear from me, but I am going to write a few lines anyway. What I want to know is, what will be the price for a saddle like mine only without the stamping and without the silver. There are lots of riders here, who like my rig, and Scoute Maish wants one in the plain leather. Please let me hear from you right away with the price.

Have you any Angora cincha cord in the white color?

Well give all the boys my regards and tell your man who made my saddle that it's the best one in the world.

Hoping to hear from you soon, I am,

Your friend,  
TOMMY GRIMES.

(Mr. Grimes saddle is a roping saddle, made on the Hamley Roper tree.)

Crowheart, Wyo.,  
December 3, 1921.  
HAMLEY & Co.,  
Pendleton, Oregon.

DEAR SIRS: I received the Bronc saddle you made for me a few days ago, and I'll say it is sure a dandy. I really believe it is put together better than the first one, and it sure fits me like I wanted it to.

A guy asked me what I would take for it, and I told him he could get the numbers off the back of the cantle and get him a new one like it lots cheaper than he could get mine. I don't know what he will do about it.

I will thank you for your prompt attention to my order, also for the fine work done on it, and the pennant and the Round-Up edition of the paper you sent me. I remain rooting for Hamley saddles.

GLEN COLE.

Salinas, Calif., Nov. 21, 1921.  
HAMLEY & Co., Pendleton, Oregon.

DEAR FRIENDS: I received my new saddle and have tried it out and everything is O. K.

Yours truly,  
A. AGOSTINI.
